Slash In Work-Relief Fund Total Is Sought

(BULLETIN)
(International News Service)

WASHINGTON, March 18.—After voting to extend the Public Works Administration until June 30, 1937, the senate this afternoon battled over a conservative Democratic proposal to slash $2,000,000,000 from President Roosevelt's $4,880,000,000 Work Relief bill.

By WILLIAM K. HUTCHINSON

WASHINGTON, Mar. 13.—While Republicans fought a White House plan to extend the PWA until June 30, 1937, a senate coalition today demanded a $2,000,000,000 slash in President Roosevelt's $4,880,000,000 work-relief bill.

Attacking the administration's new work relief plans, Senator Adams (D) of Colorado, sponsored an amendment slashing the bill to $2,880,000,000. He denounced the proposal to provide jobs, at a $50 monthly average, for all employables on relief rolls and demand continuation of the present policy of the

Opposition To Gas Tax Boost

Governor Refuses To Compromise On Measure, Despite Situation

FINAL HOUSE VOTE MAY BE DELAYED

By ROBERT F. GORMAN
International News Service Staff Correspondent

HARRISBURG, Mar. 18.—Gov. George H. Earle's proposed two cents a gallon boost in the state gasoline tax, $40,000,000 mainstay of his $203,000,000 tax program, encountered a storm of last minute opposition today as it neared a final vote in the Democratic house.

Although warned by party leaders that Democratic defections in the lower chamber may endanger passage of the measure, scheduled for a final vote at noon tomorrow, Governor Earle spurned a suggestion the proposed levy be halved to one cent as a compromise.

Bill Is Opposed.

It was known definitely that several members of the Democratic majority were opposed to the bill and that only with the most urgent demands from leaders would they switch their votes. House Democrats were not anxious to oppose the administration with all the state patronage still at hand but at the same time they explained they were fearful of the results at home should they be recorded as voting for an increased gasoline tax.

Arrest Eighty At Cock Fight

(International News Service)

UNIONTOWN, Pa., Mar. 18.—Eighty men were in jail cells today after state police raided a large barn near Star Junction, 16 mile from here, and found the men betting on game cock fights. More than 100 cocks were seized. Only one man escaped.

The raid was one of the largest of its kind staged in Western Pennsylvania. The prisoners said they lived in Connellsville, Greenville, Star Junction and Uniontown. Police think they gave fictitious names.

So intent were the gamblers on laying their bets that they did not notice the entrance of the police for some time. The cocks will be turned over to hospitals and charitable institutions for savory stews.

POWERS WILL OPPOSE GERMAN REARMAMENT

(International News Service)

The diplomatic telegraphs of Europe buzzed today as the powers prepared to unite in opposition to Germany's rearmament.

The situation in various capitals was:

London—the British cabinet met for two hours to discuss the best course of action under the circumstances, with the question of Germany's future foreign policy the paramount issue.

Rome—joint action by Britain, France and Italy freely predicted with cooperation from the United States demanded if an economic war is decided upon.

Moscow—through its official press, the Soviets extended an informal invitation to the powers to unite in "mutual guarantees of safety" against Reich aggression.

Geneva—rumors Germany has already begun construction of a secret naval force circulated as little entente representatives urged Foreign Minister Laval of France to visit Moscow as the first step in a new anti-German reorientation.

Berlin—oblivious to criticism, Germany proceeded with conscription plans, with revival of the pre-war army of 700,000 predicted if the other powers arm upward.

SEE REFERENDUM ON EARLE'S ADMINISTRATION

HARRISBURG, March 18—Voters in tiny Pike county in the northeast part of the state go to the polls tomorrow to name a legislator in a special election which, even if only in a small way, will be the first referendum on the administration of Gov. George H. Earle.

The issue transcends the election of a successor to Rep. Edward B. Labar, Matamoras banker, who died last month, in the eyes of both Democratic and Republican leaders who look upon the impending vote as a "straw in the wind" to determine public feeling.

The election was considered significant from other angles also. A Democratic seat in the house was at

New Areas Are Threatened By Flood Waters

New Parts Of Missouri And Arkansas In Path Of Mountainous Rivers

(International News Service)

ST. LOUIS, Mo., Mar. 18.—Turbulent, surging flood waters threatened new areas in Missouri and Arkansas today.

With the white, black and St. Francis rivers sucking at levees still intact, thousands of acres of land was threatened and farm families Scurried from their homes.

The refugee total was estimated at more than 9000 in 10 flood-stricken counties in Southeast Missouri and Northeast Arkansas.

The Arkansas counties, Craighead and Mississippi, were reported almost completely under water. The lowland regions of Woodruff county were being evacuated today.

Attempts to reach families reported marooned on Allen's Island in the St. Francis river, were futile and a fresh attempt was to be made today.

Farmers and National Guardsmen patroled levees to prevent any attempts at dynamiting to relieve flood conditions up the rivers or avert possible levee breaks in threatened areas below.

Laudermilch Is Sentenced

Lebanon Manufacturer Is Given 10 To 20 Year Prison Term

FOUND GUILTY OF SLAYING OF GIRL

(BULLETIN)
(International News Service)

LEBANON, Pa., Mar. 18.—Byron A. Laudermilch, elderly lingerie manufacturer, today was sentenced to a 10 to 20-year term in the eastern penitentiary, for the slaying of Emma Miller, a former employe with whom he had carried on an intimate six-year romance.

Imposing the m. ..um sentence possible under the second degree verdict returned by the jury, Judge Charles V. Henry told Laudermilch the jury would have been justified in finding him guilty of first degree murder.

Laudermilch Motionless.

Laudermilch stood as if transfixed as sentence was pronounced five minutes after his attorneys withdrew a motion for a new trial. He stood motionless as Judge Henry's lashing words echoed through the courtroom.

His wife and children, who had come dramatically to his defense during the trial, were not in the courtroom when sentence was pronounced.

Immediately after sentence was pronounced Laudermilch was led away to the Lebanon county jail, there to await transfer to the eastern state penitentiary, probably on Wednesday.

The girl, in a death-bed statement read to the jury, blamed Laudermilch for her death. The statement told of several trips they took together as man and wife.

Treaty Scrapping Turned On Powers

Action Of France And England In Debt Issue Proves Boomerang

(International News Service)

WASHINGTON, Mar. 18.—Disregard of the sanctity of treaties shown by France, Great Britain and the other former European allied powers in connection with the $11,000,000,000 owed Uncle Sam was held in authoritative quarters here today as likely to have had an important bearing on Germany's rearmament in defiance of the Versailles treaty.

Europe's outcry over Germany's decision to default on the military clauses of the Versailles treaty evoked considerable surprise.

American official were inclined to believe that the former allies had no one but themselves to blame since they, especially France, were the first to inaugurate the policy of making scraps of paper out of treaties by defaulting on the American debt agreements.

The howl set up by France particularly was seen here as a striking example of the shoe pinching when its on the other foot.

Great Britain Acts Swiftly On Hitler's Decree

Contents Of British Note Not Divulged; Germany Prepares To Arm

(BULLETIN)
(International News Service)

LONDON, Mar. 18.—The British government this evening lodged a formal protest with Nazi Germany over re-creation of the Reich's powerful army.

A short while after Prime Minister MacDonald announced in the House of Commons that steps were being taken to protect the civilian population of Britain from air raids, the foreign office made public the text of a note sent to Berlin earlier in the day.

Delivered to German Foreign Minister Von Neurath by Sir Eric Phipps, British ambassador to Berlin, the note declared his majesty's government "feels bound to convey a protest to Germany against announcement of the decision to adopt conscription."

By HUDSON HAWLEY
International News Service Staff Correspondent

LONDON, Mar. 18.—Acting swiftly and in concert with France and Italy, Great Britain has dispatched a note to Berlin regarding Chancellor Hitler's conscription decree, it was announced in the House of Commons this afternoon.

Tenor of the note was not revealed. Foreign Secretary Sir John Simon merely told the house that Sir Eric Phipps, British ambassador to Berlin, had been instructed to deliver the communication to the Hitler government this afternoon.

The note was drafted at a special two-hour cabinet session during which the spectacle of a new German army of pre-war strength was discussed in detail.

Soon after Commons assembled, George Lansbury, Laborite opposition leader, asked what the government's intentions were regarding the conscription announcement.

In Communication

Sir John replied that the government had already been in communication with the French and Italian governments and had instructed Sir Eric to deliver the note to Hitler. He said it would be made public as soon as Phipps advises Hitler has received it.

Previously, Captain Anthony Eden, Lord Privy Seal, had returned a

Local Entertainers Are Featured On Program As Exhibit Comes To Close

ANOTHER BIG CROWD ATTENDS

New Castle's big automobile show, which opened last Thursday, came to a close Saturday evening with another large crowd in attendance. Radio tryout night was observed, when more than forty were given an opportunity to do their stuff before representatives of one of the large broadcasting chains.

The names of the winners were held in abeyance and will be informed later of their success.

In addition, the regular entertainers were present during the evening, adding to the program.

There seemed to be a bigger interest in the various makes of cars Saturday evening than at any time during the show, and many of those present clustered about their favorite style of car to learn more of the facts about its operation and construction.

The show has proven one of the most successful ever held by the local dealers and is expected to result in many sales during the spring.

(Continued From Page One)

stake, for one thing. At a time when the majority needs every vote it can muster. There are 117 Democrats in the house now, 12 more than a constitutional majority, but several are ill.

May Affect Montgomery County

The results tomorrow may even have indirect political effect on the election to be held soon in Montgomery county, to name a senator to succeed the late James S. Boyd. If Republicans can overturn the usual Democratic majority in Pike, the effect would be stimulating in Montgomery county. If Democrats can increase their normal margin, the result would be somewhat discouraging to the G. O. P. in normally Republican Montgomery.

Pike county lists a Republican majority registration sheets of 477 votes, with 343 voters classified as non-Partisan. The county usually goes Democratic, however, labor having served since 1927.

Libar's opponent of last fall, Ralph E. Kelder, Matamoras railroad conductor, is the Republican candiate at the special election. He was beaten by 100 votes last November. Opposing him is Joseph H. Vogt, of Shohola, the Democratic nominee.

See Sentiment Shift

Republicans assert a victory in Pike would prove that sentiment which swept Governor Earle into office as the first Democratic executive in 40 years is swinging away from him. M. Harvey Taylor, G. O. P. state chairman, laid down that premise when he went into Pike county to appeal for a Republican victory to show that Govenor Earle's program, particularly his new tax proposals, did not meet public approval.

Democratic leaders were to stage their appeal for support for the governor at a closing rally today. State chairman David L. Lawrence was scheduled to be present.

OPPOSITION TO GAS TAX BOOST

(Continued From Page One)

cratic majority behind the bill will be made tonight at the regular party caucus. Should a rally disclose the measure to be in jeopardy, legislative leaders will postpone the vote tomorrow rather than risk an unfavorable result which could be interpreted as a defeat for Governor Earle.

Sales Tax Again.

Opposition to the gasoline tax boost again encouraged proponents of an emergency sales tax which the governor has continued to oppose as "sock the poor" levy. Some members of the Democratic majority told administration leaders over the weekend they would support the governor's tax program in full if given assurance the executive would reverse his attitude towards the sales tax which they advanced as a means of reducing some of the proposed "nuisance" taxes.

Preceding the gasoline tax bill as a special order of business tomorrow were the measure increasing and extending the gross receipts tax to gas, water and steam heating companies, both public and private, to raise more than $3,000,000 in the biennium; the tax on amusements to bring in more than $11,000,000 and the tobacco tax rated at $6,000,000.

Strategically, the gas tax impost has been placed last on the special order calendar, and whether or not it will be acted upon tomorrow or sent back for amendment hinges on the amount of opposition to the bills preceding.

Up For House Vote.

Four of the governor's tax bills designed to yield $7,000,000 by increasing fees for heavy motor trucks and buses and limiting their size were on the calendar for a final vote as a special order of business at 9:30 tonight with passage apparently assured despite bitter opposition of truck and bus owners.

The administration personal property tax bill, expected to yield about $50,000,000 for the state and as much for the counties, was in position to be called up for a final vote this week. The bill would tax stocks, bonds, money at interest and similar items.

In the senate the Woodward-Howell "anti-party raiding" bill was on the calendar for final action tonight. All candidates for public office, except judges, would be prevented from seeking election on more than one party ticket by the measure which has both Republican and Democratic support. A number of appropriation bills and several Harris election reform bills were listed for second reading.

Hearing On Eroe Bill.

Public hearings will be held in the senate tomorrow afternoon on the Eroe and Fitch "full crew" bills, reducing the size of trains and increasing the size of crews. Tomorrow night the finance committee will hold a hearing on the administration $4,000,000 "chain store" tax bill which has passed the house. The house labor committee was to hold a public hearing on the Barber administration bill, prohibiting industrial home work, at the close of tomorrow's session of the house.

tion of federal relief removed from Ohio and placed under federal jurisdiction.

Challenges Hopkins.

"Come to Ohio if you dare and show that you are a man, or turn and run like a coward and confess your contemptible character," Davey's telegram to Hopkins concluded.

A copy of the Davey telegram was given the press by his executive secretary, Mrs. Myrna Smith, who said the governor had gone to Newark to personally swear out the warrant for Hopkins' arrest. He was expected to return to the capital during the forenoon.

In the telegram the governor told Hopkins he was aware that criminal libel is not an extraditable offense, but he challenged the federal relief administrator to come to Ohio, submit to arrest and try the case in open court.

"You have done me a grave and unforgivable wrong," he wired Hopkins, "and if you have any of the instincts of manhood you will permit this wrong to be righted.

"Please remember that I am in business and that my reputation for integrity before the American people is priceless, in connection with this business from which my living is made."

The governor is head of the Davey Tree Surgery Co., at Kent, O.

Charges Corruption.

Washington, Mar. 18.—Possible criminal prosecution based on Federal Relief Administrator Harry L. Hopkins' charges of corruption in Ohio's state relief was "entirely up to the Ohio state, and county, prosecutors," it was stated at FERA headquarters today.

Hopkins sent affidavits and other evidence supporting his charges to Ohio wtih Charles C. Stillman, whom he named as acting federal administrator for the state. The evidence was to be turned over to Attorney General John W. Bricker.

Administration of the funds after they are turned over to the state is a state responsibility, and any violation would be a violation of state or local laws, FERA officials explained.

When he made public his charges Saturday, Hopkins said:

"Once the funds are transferred to the state, their disposition is a state matter. The responsibility is the governor's."

Hopkins, in his letter to Governor Davey advising him that the federal administration was taking over administration of the federal funds, told him that his evidence of corruption was "incontrovertible".

RUTH G. MACDONALD AND W. T. LLOYD WED

A wedding marked by simplicity of interest to many, took place Saturday morning, March 16, in the parsonage of the First Congregational church when Miss Ruth G. MacDonald, daughter of Mr. and Mrs. John MacDonald of 412 Galbreath avenue, became the bride of William T. Lloyd, son of Mr. and Mrs. William Lloyd, 1327 Pennsylvania avenue.

The Rev. R. T. Williams, pastor, officiated with the impressive ring ceremony, and the couple had as their attendants, Mr. and Mrs. David Johns, the latter a sister of the groom.

The bride was attractively attired in a blue crepe ensemble with gray accessories, and wore a shoulder corsage of Talisman roses and sweet peas. Mrs. Johns chose her costume in gray and a shoulder bouquet of Johanna Hill roses and sweet peas.

Mrs. MacDonald, mother of the bride, was stunning in a black satin gown while the groom's mother, Mrs. Lloyd, appeared in gray triple-sheer.

Supplementing the ceremony, a wedding breakfast was served in the home of the bride's parents, with covers being laid for fourteen. The wedding cake, topped with a miniature bride and groom, flanked by candelabrum holding ivory tapers, formed the attractive centerpiece. Spring flowers were used in decoration throughout the house.

The bride was graduated from the New Castle hospital for nurses in the class of '28, and the groom, a graduate of the local high school in '25, is affiliated in the offices of Morgan-Burrows Motor company of this city.

Later in the day, the couple left for a short wedding trip, and for traveling, the bride selected a smart black and white ensemble with harmonizing accessories.

Upon their return the young couple will take up residence at 412 Galbreath avenue.

A LOT OF MONEY

THE considerable volume of words printed concerning the proposal to turn over an immense sum of money to President Roosevelt for public relief has produced two rather curious results.

One has been the several calculations of how much money this much money really is. The other has been the several ways which writers have discovered of writing the sum. For instance, one may say $4,880,000,000 which is a long string of figures. He may, conceivably, say four billion, eight hundred and eighty million dollars, which is a long string of words. He may say "nearly five billion dollars," which is not accurate and which may get him accused of trying to exaggerate for the purpose of embarrassing the administration.

He may say "more than four and a half billion," which likewise is not accurate and which is understatement. He may say 4.8 billion dollars, which strikes us as pretty good. Or he may say 4,880 million dollars, which is novel and enlightening.

Probably there are other ways of saying this stupendous sum of money, and we suspect that before congress has exhausted itself debating it all of them will have been employed. We had remarked before that any way you look at it, it's a lot of money. Any way you say it, it's still a lot of money.

HAPPY ENDING TO THE GIFT STAMPS

When Postmaster General Farley made gifts of imperforate stamps to his friends he brought down the wrath of stamp collectors on his head. Being rare these special stamps became valuable. To atone for his blunder he ordered duplicates of those he had distributed placed for sale at the philatelic agency of the Post Office Department.

The response of the public recently nearly swamped postal officials. Fifty of the leading stamp dealers hurried from New York to be on time for the sale. Crowds gathered at the windows hours before they were opened. It was a reminder of the rush for World Series tickets. The estimate of a half million dollar profit to the government must bring a smile to the patronage general. While other members of the cabinet wrack their brains for recovery formulas, Farley stumbles into prosperity.

ANOTHER BOY KING

Another 11-year-old boy leaves school to become a king, just as little Peter of Yugoslavia was called from a boys' school in England to become King Peter II when his father was assassinated.

Prince Ananda of Siam, nephew of the abdicated King Projadhipok, is in school in Lausanne, Switzerland. Ananda has traveled more widely than Peter. He even lived in Cambridge, Mass., while his father was attending the Harvard Medical School.

It can't be very agreeable to any little boy, even a prince, who is living fairly normally with other youngsters, enjoying school days with their sports and fun to offset their studies, to be snatched off to a throne. Youngsters may think it is fun to be a king, with lots of power and wealth. They do not know about the tedious routine, the conventions that must be observed, the responsibility and the dangers.

Or perhaps they do know more than it seems. Boys play pirates, or cops and robbers, or Indians, or cowboys, or soldiers, but do they ever play kings and princes? Not in America, certainly.

TOO MUCH "HEART BALM"

It is an accepted fact that many of the so-called "heart balm" suits are instigated as mere money-making propositions. Breach of promise suits have been made into clubs which are wielded over the heads of victims who have been sufficiently indiscreet to make a false move that could be turned into evidence in favor of the racketeer.

Letters containing endearing terms are an asset to those who attempt to benefit financially by the frailities of the male sex. There is a strong suspicion, some may say it is more than suspicion, that in numerous cases the victim is deliberately led into making some statement, preferably upon paper, that will provide the grounds for such court action.

We are not insinuating that all breach of promise suits have the gold-digging racket as their motif. There are some men who hold love lightly and are not above breaking their word when it is given to some woman. This is not written in defense of this type of man. He should be made to pay for his dereliction.

In Maryland and New York legislation is pending which has as its object the curbing of "heart balm" suits. It would be a good thing if other states would seriously consider putting a check on this form of racket.

Congress has lost hope of an early adjournment, the public generally having never entertained it.

Housewives are reported changing their buying habits to meet rising costs. And some of them are just giving them up.

Secretary Wallace helped to bring March in with a roar by predicting that food prices in the first half of 1935 will rise 11 per cent over those for the last half of 1934.

A naturalist reports that mosquitoes can obtain ample nourishment without preying upon human beings. Their summer night attacks upon our anatomies, then, are just an evidence of the natural cussedness of the critters.

The World AND THE Mud Puddles

A CHINESE CUSTOM.

A witness in court in Montreal, Canada, Lee Gim, refused to take the customary oath that he would "tell the truth, the whole truth and nothing but the truth." He said, however, he would be willing to take the Chinese "oath of fire".

With the court's permission, he obtained a piece of paper, touched a match to it, and as he held the burning sheet mumbled a statement in Chinese, which, interpreted, meant: "If I do not tell the truth, my soul will burn in hell like this piece of paper".

Correctly Speaking—

When the conjunction "that" is separated by intervening words from the subject and predicate which it introduces, guard against the careless repetition of "that."

Yes, buying farms for tenants will effect a great change. The tenant will end the year in debt to a different landlord.

A MAN OF CHARACTER

SOMETIMES, when I hear men and women discussing human character, I think of an old innkeeper who used to live in the lovely Napa Valley.

He was famous, that old fellow, and proud of his fame. He wished nothing more than to keep an inn to the last day of his life, a place of perfect service in which he might prepare and sell the best of food and enjoy the delight of his guests. . . . That was enough for him, and he was an artist in his profession.

Yet he had one annoyance, and it rankled deeply. . . .Not many miles away was a well known sanitarium. And to this place came men and women, rather often, who had dined too well and abused their bodies and were suffering from diabetes. Part of their treatment was to eat carefully, to abstain from rich food and drink. If they did not do this, if they violated the orders of their physician, their chances of getting well were almost nothing. . . . This was before the days of insulin, and they knew they were not supposed to enter the old innkeeper's place.

But some of them were weak. Their appetites were stronger than their characters. Friends would call for them in fine automobiles to take them for a drive in the valley, and they would come to the old man's inn. He could spot them the moment they entered by a greedy and defiant look in their eyes. . . And he DESPISED them. He knew that this good food of his was poison to them. He knew they were not enjoying his meals as free and healthy and joyous mortals, but as doomed men and women who were too weak to do what was right. So he suffered and grumbled and was as rude as he dared to be. He felt cheapened by their presence, and when they were there—eating his roasts and his pastries and drinking his good red wine, he wished he were anything else but an innkeeper.

But by that noble contempt he showed forth the sturdy character that proved the old innkeeper a man.

KEEP IN STEP WITH THE CHANGING WORLD

You are becoming grouchy and faultfinding and you see little commendable in the youth of today.

You object to the manner in which people amuse themselves.

New methods come in for your censure.

The old way, you believe, was good enough — workmanship was better, material more durable and expense less.

It requires very little to put you in an argumentive mood.

Modern matters are especially irritating, and you see little in the future that looks encouraging.

But why have such pessimistic opinions?

Are you making things any better by crepe-hanging everything?

Why not modernize yourself?

Admit that changes must come; be willing to try them out.

Don't stand still while the world moves.

Steady progression with higher standards should be your motto.

The "good old days" were good enough for that period, but people are past the log cabin era and have already stepped up into a higher plane.

A new world has grown up around you—don't lag behind.

HIS WAY

He never let his care disturb his joy
when it was time to play,
He never hid the morning sun be-
hind the clouds of yesterday;
He never let the bad in men blind
him to neighbors fine and
good
He did his share of grieving but he
laughed as often as he could.

Because one man had played him
false he didn't say all men are
base,
He frowned on what he thought was
wrong yet met the good with
smiling face;
He didn't talk about the pains he'd
had when he was feeling well,
Nor make of life a tragedy because
he had some woes to tell.

He lived his life from day to day,
met what he found without a
whine,
Was grieved when grief was his to
bear and happy when his skies
were fine,
He fought when there were wrongs
to right and toiled when there
was work to do,
Yet made the most of what was
good, and kept his troubles
out of view.

Hints and Dints

Sun sets tonight 6:09. Sun rises tomorrow, 6:05.

It is said that liquor sales in the state store here are about one thousand dollars a day. Applied to commodities this would buy two automobiles or ten washing machines or good radios, or about three thousand bushels of potatoes, or ten thousand loaves of bread. There are a lot of things that can be done with a thousand dollars, but we presume that the people who buy the "likker" think that is one of them.

The young lady of today doesn't wait until the young man asks for her hand, she rather waits until he shows his hand first.

'How are you fixed, old man?"
"For What?"
"Why-er-I'd like a loan of $10."
"Just fine, I haven't a cent with me."

Prof. J. W. Crawford, Beloit College philosopher, advised students recently that the art of living consists of 'finding the place between too much and to little." The big trouble about that is that most people's idea of proportion is sadly warped.

"No," said the deacon of a New Castle church, "I don't approve of racing in my automobile, but when another member of my church becomes so godless as to try to pass me on the road comin' home from meeting', I feel it my duty to step on the gas, just to keep him from puttin' his trust in earthly things."

A fellow can stand a lot of noise if it means money to him. For instance, the cackling of his hens in the barnyard.

Some folks seem to have no sense of humor. Out in Denver the Bar association is kicking on the castor oil treatment administered by a municipal court. 'Such practice has made the municipal court a show place, or a place for public entertainment" says a report. And why not, you don't have to go out of New Castle to learn that lots of people like to see other people take castor oil.

For all the good it ever seems to do him, a man might as well have his conscience removed along with his appendix.

We heard of an East Side woman who is going to marry an ex-burglar, because she thinks he'll be quiet around the house.

The six sweetest words in the world are, "I love you," and "enclosed find check."

It is said that the hens in a lot of Lawrence county barnyards are getting quite chesty, since their owners have registered their brands with the sheriff. It ought to be a lot of satisfaction to the aforesaid hens and their husbands to know that the thief who puts them in the pot may be traced through the farmers brand.

Divorced for twenty-three years a Spokane, Washington couple were remarried. Anyway, they had a long rest.

What this country needs is a few smart and cleverly plausible leaders who aren't on the wrong side.

Isn't it about time to call that play Long Green Pastures?

People who complain of their lot in this world, should have been a hired man in the days of 1814. One John Pratt, Boston merchant, outlined the duties for his hired man in the following memorandum:

"Clean the brass, go and come when the bell rings. Make fires—bring in wood from woodhouse for use as it is wanted and chips. Bring in water from pump in yard—bring in water from cistern. Jog the pump every time you go for water in the yard--trim all the lamps. Clean and sweep and wash front steps and side walls. Shovel snow and take care of the garden, rake grass, prune trees, etc. See that boys don't climb over and steal the fruit. Go to market and be quick about it and buy as cheap as you can. Do not go out without asking leave which will not be granted. Do not be out nights after nine o'clock if I ever let you go. Be honest industrious and saving. Bring up coal for the parlors and chambers. Go to church, be civil, and tell the truth. See which way the wind blows. Turn the machine for washing clothes. Go to bed when I do and see that you get up early. Mind Mrs. Pratt—but come to me first. To wind up—you will do willingly everything required whether it is mentioned here or not."

It seems about as hard for the most of us to raise cash as it does for the government to raise prices.

Maybe the President is losing popularity, but a farmer isn't necessarily unpopular because his mule balks.

The remarkable thing about these modern long novels is that anybody could use so many words to say so little.

The fellow who wrote about the silent watches of the night never tried to sleep with a dollar one on the dresser.

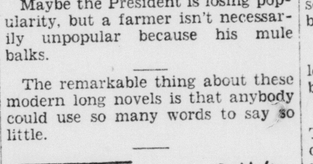
One of our state senators who was convicted of violating the prohibition law, which was nullified by the repeal of the law, refuses to resign, stating that the majority of the citizens of Delaware county, where he resides, desire representation in this most important session of the general assembly. He must have his finger on something.

Who bosses the house? Well, do they spend more time with his family or her family?

Yes, the past is ended; but the apple made rotten by the past can't be made unrotten.

As Teddy said, every cause has its lunatic fringe. The hard part is to tell where the fringe begins.

One hears little about these trial marriages nowadays, but we know a lot of birds who have been married for some time, who are still on trial.



Still, a furnace is remarkable in one way. It can smoke all the time without coughing its head off.

It is claimed that around the new Post Office building in Washington, trenches are being dug. Maybe Jim Farley is digging in while he rests for a counter-attack against the Kingfish.

Bridgeport, Conn., has a health inspector who does nothing but ride around in busses all day, sniffing the air for impurities. He should take a ride in some of the vehicles in our vicinity, especially when two or three beer guzzlers get on.

When they say a President lacks consistency, they mean he won't favor one side at the expense of the other.

Americanism: Professors planning "practical" relief for the poor; blueprints for subsistence homes providing a room for the maid.

All things are relative and the hicks from a town of 2,000 seem awful hicks to the hicks in a town of 40,000.

It has been a long time since we attended a maple sugar taffy pulling, but this season always brings back memories of those good old days. The best parties were staged in the sugar camp, with a big wood fire crackling under the simmering kettles. Your only worry was that your best girl might get her sticky fingers too close to your Sunday-go-to-meeting suit, and this was a calamity in those days when a fellow only had one Sunday suit.

Short engagements are better. The bride hasn't time to wear out her finery showing it to friends.

Of course married men are more successful. The turtle couldn't climb a tree till he had it to do.

If you use soft soap on a prospect, that's good salesmanship. If you use it on the boss, that's being a yes-man.

Government owned banks in Australia forbid the use of lipstick and rouge by girl clerks, and also limit their taste in clothes to colors of black and blue. If some of them should come in with a black eye some morning, she would probably be right in style.

Silence is golden. Only the fellow who must do the talking needs brass.

The New Deal is funny in spots. The small-town man must be paid city wages, but needs only half as much relief.

The Indiana legislature has just outlawed "heart balm" suits, such as breach of promise and alienation of affections, and injured spouses are even prohibited from naming co-respondents in divorce cases without the consent of the judge. We don't know anything about the regular run-of-the-mine legislators in the Hoosier state, but we'll bet our last year's straw hat that they are male persons.

GREAT NEWS

Mrs. Jay: "Wonderful. My husband has broken down, and we're going to Palm Beach for several months."

As we understand the righteous, it is wicked to annul the gold clause but it isn't necessary to pay the gold.

Another trouble with America is too many messiahs who never had corns on their hands.

Public ownership is the right idea—provided the public builds the thing it wishes to own.

Americanism: Telling the little fellow he has equality before the law; allowing big shots to speed through traffic with police escort.

Women nowadays seem to have it pretty soft in comparison with the wives of our hardy pioneers. An old-timer who has passed his four-score years told us yesterday that when he was a young man his wife would get up in the morning at four o'clock, milk 10 cows, feed five horses, scatter grain to a flock of chickens, get breakfast for two farmhands and be ready to begin the day's work before six o'clock. "Poor woman, she's dead now, but she sure was a good wife," he observed.

Rugged individualists are wicked pirates, useful only to build up wealth for us innocent people to divide.

Huey may be right. If Ford had been stopped when he got ten million, cars would be scarce and easy to dodge.

Legislators have tapped every big source of revenue except a tax on fool ideas.

Out in Chicago there is a girl who has been sleeping for the past three years. We don't know anybody in New Castle who has been sleeping even half that long, but we do know that there are a lot of people who are going around in a daze.

Somehow we can't weep for those who groan about high taxes and then cheerfully drop a few grand on the ponies.

NEW YORK, Mar. 18.—We'll get news comments out of the way quickly today, for we have two important letters.

A Negro died in a dark cell while on a bread and water diet at a North Carolina state prison camp, prison commission members learned by chance when they visited the camp to investigate charges of brutality. The brutality charges arose from the fact that two other Negro prisoners suffered amputation of their feet after being frozen while chained by the ankles in dark cells. The superintendent says he can't understand why the prisoner who died did die. He merely was handcuffed to a cell door for 10 hours a day with arms 48 inches above the floor—and he was given a "full" meal of bread and water twice a day. . . .

PST! LISTEN TO THIS

Of course there have been many agitations for deporting foreigners, but it has remained for Representative Hamilton Fish, Jr., of New York, to suggest the deportation of Americans, particularly Democrats, or such Democrats as those who drew up the federal work relief bill. Since it is believed that President Roosevelt is the inspiration of the bill, and since his family dates back to the beginning of the United States, it looks as if there won't be anybody left in the country—after we all finish deporting one another. . . .

"DE LAWD"

Many other writers have written on the passing of Richard B. Harrison, "De Lawd" in the five-year-run of the play, "The Green Pastures".

This writer—who has interviewed thousands of persons — found this great Negro actor to be one of the saintliest characters he ever had interviewed.

But Harrison did not imagine himself to be "De Lawd". He looked upon himself more as a shepherd to his people. He already was old when success caught up with him. He had gained the wisdom that comes with "de misery" of life. And he had a great interpretative ability, a gentle understanding, a spirituality that we associate with genius or divinity.

"De Lawd" and I chatted for a long time. But always he was thinking in retrospect. He was dreaming not of the joys of heaven but of the happy, difficult days of his youth when he aspired high for a man of his race and finally accepted the menial tasks of being a porter on a western railroad. Then, in his aging years, the genius that had lain dormant for half a century sprang to life again—when opportunity presented itself by mere chance. That was the miracle.

YOUTH SPEAKS

Our recent discussions of colleges and youth and hardships have brought us many comments.

Alfred McGinnis of Elyria, O., writes:

"It was with deep interest that I read your column conducted by Mr. Merryfield of Lorain, O. . . .

"Thousands of young people throughout the nation, upon graduating from high school are faced with the problem of trying to eke out an existence without being equipped in any way for such a responsibility. Normally a large percentage of these would be absorbed by industry or commerce. . . .

"With business in its present lethargic state, the few positions available are tendered only to the holder of a college degree.

"The Lost Generation? Surely. At least a bewildered and slightly embittered one. The writer is by no means 'red', or even tinged with 'pink'. He merely is one of the thousands who live in a dark today, with one eye cocked for tomorrow's awaited sunshine. And he occasionly stares at his mental reflection with the question, "Little man, what now?' "

COLUMBIA ANSWERS

And now we hear from Columbia university in response to our thought that university story writing courses never "made" a writer.

Edward A. Richards, associate director in charge of home study, dashes off these notes for us:

"To put the matter briefly, we exist not to discover or to promote genius, but rather to try to help the less competent become competent and complete in expression. As you may guess, all kinds of manuscripts flow into this office, and we have the temerity to discourage some of the ambitious and to encourage others. As a lady says in a letter which is now before me, a liking for a certain kind of thing is quite different from a talent for the same thing.

"Another letter also before me says that we should never discourage anybody, and that no matter how poor the accomplishment, the wish to write is 'a divine given urge to achieve'. Maybe this latter correspondent is right, but I don't think he is.

"There seem to be many people around with considerable energy and originality of conception, on the other hand, who for one reason or another have not succeeded in coming to feel at home in their own medium. These people we can help. . . . This morning, for example, I took a good deal of pleasure in telling a man from Ohio that we should be glad to have him in a course in the technique of the short story. He has a fine sense for character and isolated situation, but has not paid enough attention to the entire design of his work . . ."

Yaw-suh, professor, yaw-suh. Maybe the readers of this column believe I should take your course.

TODAY Is The Day

MONDAY, MARCH 18

Today's Yesterdays, March 18, 1452—Amerigo Vespucci was born in Florence, Italy, destined to provide a name for two continents—The Americans.

He didn't make the voyage which caused the country to be named for him! He wrote a letter about a trip he said he made in 1497 to the western country. It went to one Soderini, a former schoolfellow in Florence, through whom it fell into the hands of Martin Waldeseemuller, German geographer in a French school. Waldeseemuller used the letter in his "Introduction to Geography", published in 1507, and suggested that the new land be named for Amerigo. It was. But all Waldeseemuller intended should be named America was Brazil!

There is proof Vespucci was in Seville all the time he said he was on this imaginary voyage to the west!

March 18, 1831—James Swan died in Paris, aged 77. He was the Scotsman who in 1795 paid the entire national debt of the United States to France $(2,000,000) out of his own pocket!

March 18, 1818—Congress granted $20 a month to all officers and $8 a month to all privates who served nine months or more in the Continental army or navy in the Revolution, on proof of need.

This was the first pension act enacted by congress.

March 18, 1837—Stephen Grover Cleveland was born in Caldwell, N. J., a descendant of Moses Cleveland, who settled in Woburn, Mass., just 300 years ago this year.

He had an artificial rubber jaw, put in when his jaw was cut away because of cancer in a secret operation performed while he was president. He lived 15 years after the operation.

Notable Nativities—John C. Calhoun, b. 1782, seventh vice president of the United States. He lost the presidency because his wife snubbed Peggy Eaton, red-haired friend of President Andrew Jackson...Nicholas Rimsky-Korsakoff, b. 1844, distinguished Russian composer.

George Olsen, b. 1293, band leader ...Neville Chamberlain, b. 1869, British statesman...Dr. Richard Strong, b. 1872, Harvard specialist in tropical diseases...Judith Arlen, b. 1914, Cinemactress.

You're Wrong If You Believe—That there is an Aryan race.

A. W. Fogle, Battle Creek, Mich. doubts this statement. Well, Friedrich Max-Muller, celebrated German Gentile philologist (1823-190) used Aryan to designate the whole body of languages more commonly known as Indo-European; and he used Aryas to denominate those who speak Aryan, without respect to ethnological origin.

WARNS ON FOREST FIRES

Editor Of The News,
Dear Sir:

I would be grateful to you if you would give the enclosed article a space in your paper.

Do to the many fires that occurred Saturday in our nearby woods. I think that the public should be informed of the seriousness of forest fires.

Yours very truly,
OWEN P. FOX,
City Forester.

I am doubtful if the public knows the seriousness in starting Forest fires. The State of Pennsylvania will pay for information leading to the arrest of anyone who willfully starts a fire in the woods.

Last Saturday this district had a lot of bad grass and wood's fires. In the Cunningham Park district there were four fires burning at different place at one time.

Ralph M. Davis reported to me bad fires that he fought in the eastern part of the city. On Saturday night there was a bad fire burning near the Walmo district on the New Wilmington road. This fire endangered property as there is no fire protection in that location.

It is very hard to apprehend persons that start forest fires, but as forest fires do not start alone, someone is responsible.

It would be well for parents to inform their children about starting fires in the woods. Also one must get a permit from a land owner when a fire is to be started, so as a protection to yourself if visited by a Forest warden.

How deal with habitual criminals? Well the insane aren't confined for some offense, but only because they are a menace.

Minstrel Show Attracts 1,400

Keystone Entertainers In Annual Performance On Saturday Night

Minstrel shows of the old-fashioned type were given new life when the Keystone Entertainers, veteran minstrel group here, took to the Cathedral stage on Saturday night to present before an audience of almost 1,400 persons its annual minstrel performance.

The show, with Bert Sanford as its manager and director, greatly pleased the large audience that turned out to witness the antics of the local players and to help, at the same time, to promote the minstrel cause here. Dave Jones was the show's music director.

Hugh Hannon played the role of interlocutor and the cast of singers an' comical end men who assisted performed at their best. The solo and chorus numbers were heartily applauded.

While the first part was given mostly to chorus and quartet singing, the second part brought "Rational Barn Dance' 'in which the minstrel men impersonated a hillbilly orchestra in a radio broadcast. Solo numbers rocked the hall with laughter and encores were repeatedly demanded. An orchestra assisted.

Quartet singers were Mr. Sanford, Dave Jones, Chester Biddle and Louis Sweet.

Featuring were the vocal solos which 20-year-old Willie Parsons, Pittsburgh's "boy tenor" sang. He sang appropriate St. Patrick's day tunes that met roars of approval.

Solo singers in the show were William Jones, Carl Gilmore, George Roof, Emil Lelenko, Hayden Jones, Harry Elwell, Harry Wyman, Mr. Sanford and others.

Another Tax Bill To Be Introduced

Out-Of-State Trucks Would Be Taxed On Travels Through State

(International News Service)

HARRISBURG, Mar. 18—Another of the administration tax bills, Gov. George H. Earle's proposal to tax out-of-state trucks on their travels through Pennsylvania, today was scheduled for introduction in the house tonight.

The bill, designed to raise $3,000,000 a biennium, leaves a graduated impost ranging from two mills per mile for commercial vehicles of less than 5,000 pounds to six cents per mile for vehicles over 36,000 pounds. Solid tired trucks would pay rates 50 to 66 2-3 per cent higher.

Exemption is provided for all commercial vehicles of other states which also are licensed in Pennsylvania. This includes virtually all buses. It was expected that many truck owners will register their vehicles in this state to avoid the mileage tax if it is passed.

The bill provides for establishment of ports of entry at the state line on all main highways for collecting the taxes. Trucks would be clocked for mileage both coming in and going out of the state, paying the tax as they left. Violations are made punishable by holding the vehicle and cargo involved until fines, costs and taxes are paid.

Lawrence Commandery Party Helps Honor Grand Commander Tipton

Lawrence Commandery No. 62, Knights Templar, attended the reception tendered Grand Commander William B. Tipton of Pittsburgh on Saturday evening in the Masonic temple at Pittsburgh. Under the leadership of Commander Byron H. Hill the sir knights journeyed in a special bus to Pittsburgh and assisted in the splendid plans for honoring the distinguished Templar, who was accompanied by the grand commandery officers. The Eighth division, of which Lawrence Commandery is a unit, made a splendid showing with Division Commander Paul M. Moore, Aliquippa, in command.

Newspaper Man Makes Visit To Quintuplets

By JAMES L. KILGALLEN
International News Service Staff Correspondent
(Copyright, 1935, by International News Service)

CALLENDER, Ont., Mar. 18.—Those quintuplets! How are they? The answer is "fine!"

And what "cuties" they are!

Dr. Allan Roy Dafoe, the now celebrated country doctor, took the International News Service reporter out to see the Dionne quintuplets—Marie, Cecile, Emilie, Annette and Yvonne—and the sight was something to gladden the eye and warm the heart.

Five Fine Babies

Five beautiful babies, kicking around in their beds, having a lot of fun and their big, grey-brown eyes lighting up at the sight of the doctor as he chucked them under the chin and called each by name. Healthy-looking babies, not quite ten months old, with cheeks rosy from three hours outdoors each day in their buggies. It was something you couldn't see anywhere else in the world! Here you saw it, away up here in the rugged north, more than 200 miles north of Toronto.

I met Dr. Dafoe at Morrison's General store on the main street of Callander. He wore a big fur cap and an overcoat (it gets cold up here) and he was smoking a pipe. He said "jump in" and we got in his car. It was filled with packages and he remarked: "I'm a mail man and everything up here." Most of the packages were gifts for the "quints."

We drove three miles over a winding road. On our way, driving through Callender, we passed the doctor's home, a two-story white building with a red brick front and a neat white fence. On the front of the house was a modest, brass plate containing the words: "Dr. A. R. Dafoe." There the doctor, a 51-year-old widower, lives with an elderly, genteel housekeeper who takes his telephone calls when he is away—as he is so often—treating the sick in the district.

Go To Dafoe Hospital

The road led into the country. We were headed for the "Dafoe hospital for the quintuplets." The doctor explained it cost the Ontario government between $10,000 and $15,000 to construct the road which used to be an old Indian trail. Years ago the Algonquin race of Indians inhabited the Lake Nipissing district. The doctor was profuse in his praise of the Canadian government officials for what they had done for the babies.

Dr. Dafoe called attention to the telephone poles and lines paralleling the road. The Bell Telephone company, he said, had built the lines out into the country to the hospital. He remarked that the only way the hospital could be reached by telephone was by first calling his home.

"It shouldn't really be called a hospital now," said the doctor. "It's really a nursery. The babies are no longer frail. It's a hospital only in the sense we have nurses there."

The automobile pushed on over the snow. Suddenly a shadow flitted across the doctor's kindly face. He pointed to a shack along the road and said:

"See that white rag on the door? Well, that's meant for a crape. their baby—nine months old—is dead. They called me in too late. Babies up here don't always get the best of care. Many folks are poor. It's all very sad."

Birthplace Of Babies

On we went for about three miles. When we were within 100 yards of our destination the doctor pointed to a house by the roadway and said:

"That's where the quintuplets were born."

It is a story-and-a-half, frame house, its yellow paint darkened by the elements. A typical Canadian homestead, with two little out houses. The doctor explained the quintuplets had lived there for the first four months—until the hospital was built.

The doctor's car almost immediately turned into a lane. The new home of the quintuplets—the Dafoe "hospital"—met the eye. It is a cheery-looking, one-story building, neatly painted with the color scheme green and yellow and a nice front porch and large windows.

The building is fenced in. The car stopped. A caretaker came, turned a key in a large iron gate, and let us through. An Eskimo dog followed at Dr. Dafoe's heels as he entered the hospital where those marvelous quintuplets are being given expert care by skilled Red Cross nurses.

(Tomorrow: Mr. Kilgallen will tell how Dr. Dafoe and the nurses handle the quintuplets.)

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Pictures Of Plant Life On Exhibition

(Special To The News)

NEW WILMINGTON, Pa., Mar 18—Fifty photographic studies of plant life by Karl Blossfeldt, noted German photographer, are on display at Westminster College. This exhibit is the fifth of a series loaned Westminster this year by the American Federation of Arts, of which the college is a member.

Commenting on the photographic studies, Professor Harold Brennan, head of the art department, states that for design and structure the pictures constitute one of the most illuminating studies of nature. Enlarged pictures of flowers and leaves bring out the decorative value of those forms with respect to symmetry and proportions, Professor Brennan points out.

Average Felon In Pennsylvania Native Born Son

Is Youth In His Twenties, Report Of Department Of Welfare Shows

BURGLARIES CAUSE MOST SENTENCES

By G. EVERETT DOYING
International News Service Staff Correspondent

HARRISBURG, Mar. 18.—Pennsylvania's average felon is a native-born youth in his twenties, the son of native-born parents, serving "time" for robbery or burglary, with less than common school education, and probably unmarried.

This characterization of the average type of the state's 6,000 criminals was gleaned today from statistics of the Department of Welfare compiled from individual record cards of inmates at Eastern and Western penitentiaries and the State Industrial School at Huntingdon.

Police and prison welfare workers believe the studies have developed valuable information to aid in the war on crime. It is probable the figures will be given considerable attention if Pennsylvania holds a crime conference this summer, as provided for in the Weiss resolution before the legislature.

Most Under Thirty

The studies show that more than half the prison inmates are under 30 years of age, 14 per cent being less than 21 years of age. The largest age groups were 25 to 28, 30 to 34 and 21 to 24 in that order, more than 1,000 criminals falling into each grouping.

Native-born prisoners outnumbered foreign-born 10 to one. A total of 500 foreign-born convicts were listed by the survey, as against 3,724 native white and 1,561 native Negro inmates. Commenting on this, the report said:

"It is interesting to find so many more native born than foreign born inmates of our prisons because the proportion frequently runs the other way."

Taking only the native whites, the studies revealed that 1,997 criminals in this group were of native parentage, more than twice the number of those of foreign-born parents.

From a crime classification standpoint, burglary appears as the most common crime, followed closely by robbery. The figures were 1,541 and 1,439 respectively. Larceny, murder, sex crimes, assault and carrying deadly weapons follow in that order. None of these groupings listed more than 1,000 criminals.

The reports listed more youths under 21 years serving sentences for burglary than any other age group. This also was true of larceny. The 25 to 29-year group drafted the largest number of robbers, while the greatest number of murderers were between 30 and 34 years.

Remarking that "presumably the cleverest criminals are the ones who do not get caught," the reports showed that more than 4,000 criminals had not graduated from common schools. Only 710 went to high school, and of these but 77 ever attended college. Intelligence questionnaire tests revealed that more than 3,500 of the group rated less than average intelligence and that the largest group were of the moron class.

More than twice as many of the inmates were listed as unmarried than married.

SNEAK THIEVES STEAL TWO COATS

Sneak thieves reached through a first floor window and stole two coats from the Smith home, 503 Florence avenue, Saturday night. One coat belonged to Mrs. Smith, and the other to Mrs. Ray Thompson, 421 Court street.

POLICE TAKE BOY TO HOSPITAL

Police took Richard Ryhal, 14, of 511 Vine street, to the Jameson Memorial hospital Saturday night. He was playing in Neshannock avenue and dislocated his left shoulder, according to a police report.

Local Canal On Rivers Program

Will Receive Consideration From Rivers And Harbors Congress In April

ANNUAL MEETING WILL TAKE PLACE

By ARTHUR C. WIMER
Special Washington Correspondent New Castle News

WASHINGTON, D. C., Mar. 18.—Proposed improvement of the Beaver and Mahoning rivers is expected to receive considerable attention at the 30th annual convention of the National Rivers and Harbors Congress which was called today for April 2 and 3. Representative Dewey Short of Missouri, national vice president of the organization, issued the call.

Officers of the congress regard the convention this year as probably the most important session ever held. With the president's work relief plan in the offing, they expect to draw up a program of river and harbor improvement for submission to administration leaders. It is thought probable the proposed Beaver-Mahoning improvement will be included in this roster of projects.

The projects committee of the convention will meet on April 30 and May 1 for the purpose of preparing a list of waterway projects for inclusion in the government's public works program.

Delegates representing the governor of Pennsylvania and the New Castle Chamber of Commerce are expected to attend the convention.

Police chronology for 48 hours ending at 3:30 p. m. March 17: 12 arrests on charges as follows: Drunkenness and begging 3: begging 1, violation of parking laws 3, fighting 1, suspicion 1, drunkenness 3.

While records show 12 arrests for the past 24 hours the fact remains that none of them were made Saturday night and there was not one prisoner to face the mayor in police court on St. Patrick's morning which was refreshing.

Fire apparatus was kept speeding to various sections Saturday afternoon on account of grass fires. Before any person can build a fire to destroy rubbish he or she must first obtain a permit from fire authorities.

There's something about a Chesterfield —

There's one thing I especially like about Chesterfields—entirely aside from the fact that it's a milder cigarette—and I've heard a number of people say the same thing ... While I'm smoking Chesterfield I never get little crumbs of tobacco in my mouth—the tobacco doesn't spill out and that adds a lot to my pleasure of smoking them ... I notice more and more of my friends smoke Chesterfields.

On Court House Hill

Miss Helen R. Weingartner has been granted a notary public commission which was placed on record at the register and recorder's office today.

Boilers for the county home, the contract for which was let recently, have been ordered, but it is expected that it will be several weeks yet before they can be installed.

Ray Foster, of Plaingrove, was at the county commissioners office Saturday securing the names of the commissioners to a petition asking the state highway department to improve a road leading from the Plaingrove road near the Pollock store east to a point on the road running north from Moore's Corners on the New Castle-Slippery Rock road. Residents along this road desire that it be made a Pinchot road or be improved in any way that the highway department may elect.

Taxpayers who wonder where their money goes will be interested in the report of County Controller R. C. McCaslin, which shows that during the past year, $38,738.79 was paid out to the various penal institutions of the state for keeping prisoners sent up from this county. The largest amount, $16,287.16, was paid to the Western Penitentiary. The Pennsylvania Industrial Training School at Huntingdon, got the next largest amount, $9,718.02. Other figures are: Allegheny County Workhouse, $3,532.50; Torrance State hospital, $2,587.59; Fairview State hospital, $1,140.83; Polk State hospital, $437.42; State Industrial Home for Women, $667.76; Eastern Penitentiary, $452.59; Allentown State hospital, $280.28, and Dixmont hospital, $139.54.

The sheriff's office was the scene of a wedding Saturday when a Youngstown colored couple brought their own minister along to perform the ceremony. The contracting parties were Roosevelt Cooper and Miss Fannie B. Clinkscales. They were married by Rev. Albert Fowler, pastor of churches at West Middlesex, Pa., and Lowellville, O. They were accompanied by a number of their friends.

Sheriff Edward D. Pritchard has received papers from the Allegheny county court to be served on Herman Neumeyer, of West Pittsburg, to bring him in as a party defendant in an action of trespass filed in the Allegheny county courts by Morrow P. and Emily Perkins against F. F. Cochran. The case is one growing out of an automobile accident. The defendant claims that Neumeyer was responsible for the accident, and wants him brought in as a party defendant in the case.

When the judge is charging a jury at the termination of a murder trial and the attorney for the prosecution or defense "takes exception," a reader wants to know what "exception" means in the case. An "exception" is the method used by counsel in a case to have an appelate court decide whether the trial judge's ruling on the point "excepted" to, was correct. If the attorney does not ask for an exception at the time the ruling is made, or charge to the jury given, the court on appeal will assume that the ruling was correct, and will not hear argument to the contrary. Counsel is entitled to an exception as a matter of right.

Collectors who were given the 1934 delinquent taxes to collect report that their collections have not been much better, if any, than the previous year. Many of those who owed their taxes at the time that they were turned over by the county collectors have since been out of work, or if they did have work, have not been earning enough to meet their running expenses and get their taxes paid. From present indications it looks as though there will be a large amount of taxes that will be filed for 1934.

PRINCESS BARBARA IS HEADING FOR RENO

To Seek Divorce From Her Prince

Incompatibility Is Ascribed As Reason For Seeking Divorce

PRINCE MAY GET SETTLEMENT SUM

(Copyright, 1935, By International News Service)

LONDON, Mar. 18.—Prince Alexis "doesn't appreciate" his princess, Barbara Hutton M'Divani, and for that reason she is going to Reno shortly to divest herself of prince and title.

"But he's still the only man for me," she confided to friends today.

That remark referred to persistent rumors that the real motive back of Barbara's contemplated divorce was a new love interest in her life.

Incompatibility will be the formal grounds that she will lay before the Nevada court, Barbara said.

"Remain Friends"

"We've been very good pals, but he hasn't been appreciative of me," the Woolworth heiress complained.

"I don't know what lies in the future, but I will say this, Alex is the only man for me.

"We remain the best of friends, and will probably see a great deal of each other, because we will still be in the same social group.

"Alex is charming, but we just couldn't get along."

Referring to reports that divorce might mean a large financial settlement for the Georgian princeling, Princess Barbara said significantly:

"In my position, I shall do whatever I can for Alex. He's a swell guy." Barbara has already given him around a million dollars in gifts and endowments, it is reported, while he is said to have been guaranteed a life income of $50,000 a year.

She said she hoped to return to the United States aboard the Olympic March 27 or the Europa March 30.

Will Go To Reno

"Probably" she will go immediately to Reno to establish legal residence there, Barbara said, although she might remain for a few days in New York to confer with her attorneys. "That's all in the lap of the gods."

While Prince Alexis is in Spain, Princess Barbara is not losing any time over their separation. She spent the week-end in the country with friends, and is frequently to be seen with gay parties at London's bright spots.

The divorce decision came in Paris, only a few days after they were united following a winter's wide separation, she in New York and Alexis in India.

Split-up Inevitable

Chicago, Mar. 18.—"The split-up between Barbara and Alexis was inevitable."

Thus Mae Murray, stage and screen beauty, commented on Princess Barbara Hutton M'Divani's announcement that she was divorcing Prince Alexis.

Miss Murray learned about Georgian Princes from Prince David whom she married in 1926 and divorced seven years later, charging among other things that he had beaten and cursed her.

"Marry Americans," the petite blond advised, adding:

"To these Georgians a woman is only a plaything, a chattel.

"They love you passionately, but there is no kindness or consideration in their love.

"Treat 'em rough and make 'em like it' seems to be the motto of the M'Divanis."

Miss Murray arrived here from the east and is enroute to her home in Hollywood.

Heading Off Babies.

Don Poncho Speaks Truth.

By ARTHUR BRISBANE

OF THE MANY 'relief and dole scandals," one reported from Martinez, in this state, surpasses others. A grand juryman alleges that "women on relief" were coerced into undergoing sterilization operations with threats to remove them from relief rolls.

This is going a little far, even for gentlemen distributing taxpayers' money.

THE PRESUMPTION back of the attempt to keep women on the dole from having children is, presumably, that women on the dole, would necessarily have inferior children.

Nancy Hanks, who lived in a little cabin without windows, was very poor, and might well have been on the dole in such times as these. It would have been a mistake by "enforced sterilization" to have prevented the birth of Abraham Lincoln.

WHEREVER YOU GO in this western country, the giant Pacific seems to follow. You ride over hundreds of miles of green hills and mountains, covered with wild oats and clover, and after riding far enough to lose sight of any ordinary lakes, sea or ocean, the great Pacific is still there under your right elbow as you go south. This is a wonderful, and "big" country. Enormous cala lillies grow out of doors, six feet high; heliotrope vines that never wither climb up over the roofs of houses, thickly loaded with flowers.

You should see this magnificent coast, and this is the time to come, with the great exposition in San Diego about to open, gathering Americans from every corner of the country. Remember that the spring and summer season is California's best season.

TODAY, Don Pancho, young and active Spanish-American, aged 83, whose grandfather owned a ranch on this coast when the country belonged to Mexico, decided that the ride in the direction of the mountain lions should lead to the "big bed rock," on the second mountain range, beyond the Marmole Valley.

Following a narrow trail above a long drop, Don Poncho remarks:

"This is the road that everybody used to take to Monterey, about 150 miles over the mountains and up north.

"Life was better then. People worked harder. We used to drive 500 steers at a time for Senator Hearst, from here to San Francisco, resting in the middle of the day. It took six cowboys for 500. Now they put them on trains; costs money, not so good. Those times were better. We had big Spanish wagons, used to cut down a big sycamore tree, cut out wheels from the trunk, grease the axles with tallow; you could hear the wagon coming more than a mile. When it squeaked too much we put on some more tallow."

DON PONCHO advises the younger generation thus:

"Good long sleep, every night. That's what I do. Get up every morning of my life at half past four, after good long sleep. Young people today don't know how to live. I tell you the truth. I danced with a girl. In a few minutes I stopped and said 'I dance no more. You smell like old wine barrel,' she had had something to drink. A few days later she said, 'You make me so ashamed, Don Poncho. I drink no more.'"

THE DEATH OF WILLIAM H. FIELD, only 58 years old, owner of the Rutland, Vt., Herald, means the loss of one of the ablest newspaper publishers and business men in the United States.

His death reminds newspaper proprietors that it is important to recognize ability, in men near them.

William H. Field worked for Frank A. Munsey, who knew too little about newspapers to keep Field as his business manager. Others that did know had cause for rejoicing. Field was one of the greatest newspaper publishers in America, and, necessarily, one of the hardest workers.

BUYERS for department stores and sporting goods houses might wisely prepare for a strong revival of the ping pong craze. Ping pong has drawn large crowds in Europe recently, a Hungarian winning the championship.

Perry, the world's champion amateur tennis player, now in California, formerly ping pong champion, does not agree that ping pong is bad for your tennis games, perhaps because his tennis is a wrist game.

Enterprising gentlemen that make over amateur tennis players into professionals will be interested in Mr. Perry's possibilities. He must realize, as other amateur champions have done, that while amateur standing is an admirable possession, "you canot eat it."

MORE THAN 2,000 CRIMINALS rounded up by the federal government, within a few days, are in jail. Under our present system this will mean 2,000 trials, many failures to convict the guilty, and many releases "on parole" after conviction.

In a more primitive day as many of the 2,000 as had criminal records, would have been disposed of and buried. That procedure, which we would deplore now, probably helped to diminish the crop of criminals, without wasting time on "sterilization."

Admits Beating Aged Mercer Man

Youth Struck Down Aged Mercer County Man To Get Money To Buy Cigarets

(International News Service)

MERCER, Pa., Mar. 18.—Henry H. Winkler, 19, of Mercer, confessed today, police said, that he had beaten 74-year-old Monroe Coulter on the head with a hatchet handle because he wanted money with which to buy cigarets. He said he became frightened and ran before searching his victim.

He was arrested at his home and told county detectives he had gone to Coulter's barn, had released the dog and had hidden until the aged man appeared. He then said he hit coulter and knocked him to the ground again. Coulter was not seriously injured. Winkler is married. His wife is with friends in Pittsburgh.

After pleading guilty before Squire McClain today, Winkler was taken into sentence court where he was sentenced to Huntingdon.

The congregation was moved by these powerful addresses and many responded to the invitation to seek Christ as the savior and sanctifier.

'onight, Rev. Rood will give his life story under the subject "The Ups and Downs of a Pioneer Holiness Preacher". Services will be held each evening this week at 7:30. Day services will be conducted each morning, except Saturday.

Let Death Take A Holiday

Of course, if you insist upon thinking of spring in terms of winter or of joy in terms of sorrow—or, let us say, of life insurance in terms of death—there is really nothing we can do to prevent it . . . But we'd

rather you wouldn't. We think of life insurance as *life* insurance, with all that the name implies. Freedom from worry. A comfortable old age. A guaranteed estate. In a word, the comforts of *life* . . . Perhaps that is one reason why this seventy-year-old mutual company, with nearly one billion dollars of insurance in force, numbers among its policy owners many a wise business man who regards life insurance as *the* investment opportunity of a lifetime. Yes—life insurance is very much alive. Let death take a holiday!

——OUR YESTERDAYS——
When R-34 Flew From Scotland to America, First Transatlantic Flight by Dirigible

SOON AFTER the United States navy seaplane NC-4 became the first aircraft to fly across the Atlantic ocean, the British dirigible R-34 pointed its nose westward and made the first transatlantic airship flight. The R-34, with 31 men aboard, made the flight in July, 1919, from East Fortune, Scotland, to Roosevelt field, New York. It accomplished the trip, a distance of 3,130 miles, in 108 hours and 12 minutes. After a few days in the United States, the dirigible made the return journey, setting a world's record for lighter-than-air craft by negotiating the distance in 74 hours and 56 minutes.

Finishing Drops First Game Here

Office Gives League Champs Surprise With 35-33 Victory Saturday Night

LOSS BY MECHANICS CLINCHES TITLE

ELLWOOD CITY, Mar. 18.—The Shelby Inter-department Basketball league took an unusual turn Saturday, cut the league season short, and clinched the title for the Finishing department the second straight year.

The situation was that the Finishing had two games won more than the Mechanics. A victory Saturday night would have given them title, but in case of defeat, which occurred, the Finishing would be compelled to play off a postponed game with the Cold Draw, that is, of course, if the Mechanicals came through.

Well, the underdogs had their day last Saturday. Finishing was humbled 35-33 by a fast clicking Office team, and the Mechanicals were humiliated by the Inspection passers 42-23. This of course gave the title on a platter for the Finishing.

Captain Patterson led his teammates to victory in the first game by tossing in six field goals. Justine and Ursu got four apiece for the Finishing. The Office held a slight edge at the end of every period.

Friedhoff and Lasso registered 11 points apiece for the Inspection, but Arnold of the losing team, took scoring honors with seven field goals.

Want License To Protect Sign Writers

Local Sign Writers Would Protect Themselves By City Ordinance

Petition was presented to council at their meeting in city hall today by a committee representing the Master Sign Writers in which solons were requested to adopt restrictions here which are effective in other cities. Council promised to confer with the sign writers.

According to their spokesman, Lou Pearsall, other cities have laws which make it compulsory for out-of town sign writers to pay a license fee and are compelled to employ men of that particular town. Pearsall said the Sign writers here believed adoption of such regulations here would be only fair to local Sign writers.

Solicitor White informally said that in his opinion an ordinance to this effect would not be valid and expressed the same opinion about the ordinances in other cities referred to by the Sign writers.

In his report to local police McCune stated that he had started to slow up his car for the curve at Deemer's, when it skidded off the road and side-swiped a telephone pole, damaging the whole right side of the car.

All the occupants of the car were taken to the hospital. The two men were injured only slightly and after receiving first aid were discharged from the hospital. House Leaders Strive To Kill Army Increase

(International News Service)

WASHINGTON, Mar. 18—Mandatory increase of the army of 165,000 men was endangered today when house fiscal leaders sought white house aid in an effort to kill the senate "rider" to the $400,000,000 annual army supply bill.

The question will be fought out at a meeting of senate and house conference committees on the army bill this week.

A fight to slice other increases in army funds voted by the senate also was threatened by the house conferees, who demanded that the big bill be kept within budget limits set.

GREAT BRITAIN ACTS SWIFTLY ON HITLER'S DECREE

(Continued From Page One)

negative reply to a query as to whether Britain had promised France to enter a mutually prctective arrangement with France alone if a wider scheme including Germany failed of establishment.

Lansbury asked if the government proposed to discuss the situation with the United States and other signatories of the World war peace pacts or to ask a meeting of the League of Nations assembly.

"Both of these matters are under consideration," Sir John replied.

"Are the Italian and French governments sending notes?" Lansbury asked.

"I cannot make a statement about it," Sir John said.

Sir John handed copies of the British note to the French and Italian ambassadors. It was expected to be made public this evening.

Will Act Together

Rome, Mar. 18.—Great Britain, France and Italy will present a united front in combating Chancellor Hitler's conscription plan and hope for cooperation from the United States, it was stated in high official sources today.

Well-informed quarters expressed growing anxiety over the situation when a cable was received from Ambassador Rosso in Washington declaring the United States had not yet made known its intentions.

High sources indicated to International News Service the great European powers will act in concert in one of four ways—a joint note of protest direct to Germany, an appeal to the League of Nations, commercial war, or armed intervention.

"The United States is in this as much as any other and we expect them to join us," one official said.

"Especially if a commercial war is decided upon, it would be futile unless the United States gave full cooperation.

"One thing is certain. The governments and England, France and Italy will act together and there will be no individual action."

Question concerning the possibility of mobilization, he said:

"We'll do nothing like that here unless the others do likewise."

Italy now has more than 300,000 men under arms and when new classes are enrolled in April the number will exceed 700,000. In the event of a general mobilization order, more than 7,000,000 men could be placed in the field within a few days.

Moscow Attitude

Moscow, Mar. 18.—An informal invitation to all European powers to unite immediately in "mutual guarantees of safety" in answer to the rearmament of Germany was extended by Soviet Russia today through the government newspaper "Izvestia".

A similar article appeared in Pravda, organ of the Communist party, and both attacked the "undoubted" military designs of a Germany freed by her own actions from the shackles of the Versailles treaty.

Whether the Reich's designs will fall on Austria, Memel and Danzig cannot be foretold, Izvestia declared, continuing:

"There is no doubt that with its last step Germany is preparing for political aggression.

"All now depends upon whether the powers can quickly form a system of mutual help in case of German attack. Only if Germany understands such a system is in force—with her if she desires and without her if she refuses—can be sure Germany comprehends she is weaker than the powers which wish retention of peace."

After Germany has fully clairified her aims, the other powers should afford full clarity regarding their defensive means and their power to safeguard the peace of Europe and humanity."

The suggestion amounts to advice to the powers to push through the so-called "Eastern Locarno" pact immediately regardless of German cooperation.

Germany Proceeds

Berlin, Mar. 18.—Oblivious to criticism from her former enemies, Germany today launched the task of creating her new army, provided for in Chancellor Hitler's conscription decree of Saturday which scrapped the Versailles treaty.

Defense Minister General Werner Von Blomberg called his staff together to work out the conscription plan on the basis of twelve army corps. But the framework will be elastic and designed to guarantee Germany full defensive strength against all eventualities.

Actual numerical strength of the new force remained unknown, but 320,000 men was generally accepted as the minimum figure.

"Nothing further can be said at present," declared an official of the Reichswehr, "except that outside estimates of half a million men are too high."

This same official said the present plan was to complete a scheme for the draft and then submit it to Chancellor Hitler for approval. When this has been received, details will be made public through the medium of the Nazi press.

Well-informed quarters intimated the plan would be based on an inverted pyramid, with a one-year term of service likely to provide a quick turnover for acquisition of rapid and effective reserves.

The first part of the plan, dealing with the standing or peacetime army, is likely to be based on the ratio of 5 per cent of ahe available population, providing over 350,000 officers and men within a short time. Increases in the navy air force will send the number to the 400,000 mark.

Germany's pre-war imperial army consisted of 24 corps, plus guards, affording a total of more than 700,000.

AT WESTFIELD GRANGE

JAMES MITCHELL PLACED ON TRIAL FOR WIFE MURDER

(Continued From Page One)

Sheriff Edward D. Pritchard and Deputy Ben Hartland.

The indictment, charging him with the murder of his wife, was read by Prothonotary R. M. Campbell. During the reading Mitchell stood with uplifted hand. "How say you, "guilty or not guilty?" asked Campbell.

"Not guilty," replied Mitchell.

"How will you be tried?"

"By God and my country."

"God send you a safe deliverer," concluded Campbell.

Selecting Jury

Mitchell then took his seat beside his attorney, Walter S. Reynolds, and the selection of a jury began. Each juror was called and sworn on his voirdire. He or she was then examined by Reynolds for the defense and District Attorney Mont L. Ailey for the commonwealth.

Examination had not proceeded far until it was evident that there were probably as many conscientious objectors to capital punishment as there were last week when Joe Stinnett was tried. More than half of the jurors called were opposed to capital punishment and were challenged by the commonwealth for cause.

Last week when the Stinnett case was up it was believed that it "just happened" that there were so many jurors on the panel who were opposed to capital punishment, but the jurors summoned for this week seem to be equally strong in their convictions, which would seem to indicate that there is a changing sentiment with regard to capital punishment.

Mitchell is charged with shooting his wife during an argument. It is claimed that he had been drinking. He says the shooting was an accident. He claims that he was handling a revolver when it was accidentally discharged. The bullet took effect in Mrs. Mitchell's abdomen, causing injuries from which she died.

One of the questions asked jurors is with reference to Mitchell's marriage. The question is, "If it should develop in this trial that Mrs. Mitchell was but a common law wife would it prejudice you in arriving at a verdict?"

None of those examined admitted that it would prejudice them. Another question was with reference to Mitchell's habits. It was: "If it should develop at the trial that Mitchell was addicted to the use of intoxicating liquor, would it prejudice you?"

All the jurors examined answered this question in the negative.

St. Vitus Church Will Have Novena

Devotions To Be Conducted Every Tuesday For Thirteen Consecutive Weeks

Tuesday will start a Novena at St. Vitus church that will continue every Tuesday for thirteen consecutive weeks, ending on June 13, with the Feast of St. Anthony.

Devotions will be conducted every Tuesday evening at 7:30 o'clock, Rev. Fr. N. DeMita stated today, and the church has been appropriately decorated. It is believed that the devotions will attract large crowds of members every week.

Rev. Fr. Albert Farina, an assistant at St. Vitus, will lead the devotions and will deliver discourses.

Because tomorrow brings also the celebration of the Feast of St. Joseph's, there will be two high masses in the morning, at 8 and 9 o'clock, in addition to the devotions in the evening at 7:30.

As St. Vitus is the only church in Lawrence county privileged to have the relic of St. Anthony it is anticipated that the novena will be attended by not only the local congregation members but many out of town people.

To Charge Pair With Auto Theft

Arrests Are Made By Constable McClenahan At New Bedford

Robert Wilson, 30, said to have escaped from a California jail, and Roger Bargar, 18, of Rochester, N. Y., are in the county jail here, and according to State Highway Patrolmen will be charged today with interstate larceny of an auto. They were captured by Constable Robert McClenahan about 12:30 p. m. yesterday at New Bedford. They were brought to jail by Corporal Lawton and Private Holmes of the highway patrol.

According to the report at the patrol station here, the pair were in Angola, N. Y., and stole a car belonging to Paul Rehberg of that place. They got gasoline at New Bedford, thanked the attendant and rode away without paying for it. Highway patrolmen chased them, but they escaped. They came to New Castle yesterday and went to the Emery gasoline station, near the airport, New Castle-New Bedford highway, and got gasoline, thanked a boy attendant and rode away without paying for it. A call was sent to the city police.

The city police put the call on the air for the Youngstown police, then notified the highway patrol and the latter notified Constable McClenahan on the telephone. He stopped the car and took the pair into custody at New Bedford. When searched it is alleged Wilson had a .32- revolver on his person. According to the patrol, Wilson has a police record and is wanted for jail-breaking in California. He is alleged to have told the authorities that he has stolen 60 or 75 cars, and on the day previous to the Angola theft stole a car at Erie and abandoned it between Buffalo and Olean.

Pulaskis Topped By Falcon Five

Game At Pulaski Floor Draws Crowd Of 800; Kawa Scores 25 Points

K. Pulaski basketball players gave all they had yesterday afternoon at the Oakland floor, but their efforts were unavailing as the Polish Falcons piled up a tremendous lead of 75 to 19 over the first-year Pulaskis. A crowd that numbered close to 800 witnessed the game.

Kawa Star of Game.

"Rus" Kawa was the star in the Polish Falcon ranks with 25 of the points. He played a fine floor game and was flashy throughout. Budai and Augustyn piled in 13 points apiece for the Falcons, with J. Sniezek getting nine points and B. Ostrosky eight points. The Falcons played an impressive game.

The Pulaski boys played their hearts out, but against the older and more experienced Falcons were unable to cope with their stronger opponents. Coach Walter Sniezek started his strongest lineup, and the boys played a fine brand of basketball, but the reserve strength shown by the Falcons was too much for the Oaklanders. "Red" Boron and Johnny Slosernick were the leading scorers on the Pulaski team, with 14 of the points. Zaremba had three and "Cash" Mateja, playing with a badly crippled leg, had two points. Despite his injury Mateja played a great game as did Boron, Zaremba and Johnny Slosernick.

Falcons Lead.

The score at the first period was 15 to 3. At the half it was 33 to 8, and at the end of the third period it stood at 48 to 18. The K. Pulaski boys played themselves out in the third period, making a very fine showing. The Falcons ran wild in the fourth stanza to ring up many points.

In the preliminary game the Falcon Reserves handed the Pulaski Reserves a 40 to 24 upsetting, with Henry and B. Koszela doing the best work for the Falcons and Boczar and Slezeski the best for the Pulaskis.

Church Golfers To Meet Tuesday

An important meeting of the New Castle Church Golfing league managers and officials will be held at the Elliott and Waddington store on North Mercer street at 8 o'clock Tuesday evening. Plans for the banquet to be held at the First Presbyterian church will be discussed.

The banquet date is Thursday, April 4. J. B. "Jack" Waddington, president of the league, will have charge of the meeting tomorrow night.

Jesters-Gersons Game Cancelled

Business Manager Paul Eagan announced today that the Jesters of Youngstown will not be able to fill their engagement with the Gersons at the Humbert floor tonight, and will be at New Castle on a later date. The Gersons lost to the Youngstown team at the Ohio city several weeks ago 27 to 24, and expected to avenge the defeat here.

Sunday School Games Tonight

Three games will be played in the Sunday school league at the "Y" floor tonight. The first game will start at 8 o'clock. The First Christian "B" team will battle the St. Johns team in the first game. The St. Michaels "B" quintet will play the First Baptists in the second game, and the third game will send the Highland U. P. quintet against the Third U. P. five.

THE SPORT PATROL

By JOHN J. MAHER, JR.

THE DETROIT TIGERS

While the Cleveland Indians are getting most of the attention in the pre-season forecasts, the Detroit Tigers, last year's American League winners, are likely to display strong opposition during the coming campaign. They seem to be just as good—no better, no worse—as they were last season, so the question of who shall win in '35 hinges upon whether or not any of the other teams have improved sufficiently to overtake Cochrane's boys.

The Auto City supporters who claim that Detroit is going to be vastly improved this season base their prediction on the fact that Rowe and Auker can start winning at the beginning of the year. As you will recall, neither was considered a heavy winner this time last year.

But these fans seem to be forgetting the case of Firpo Marberry when they become so prematurely jubilant. Last season Firpo won 15 games while losing only five, and the majority of his victories came in the forepart of the campaign when Auker and Rowe were not doing so well.

Firpo weakened about the time the younger pair began to win and he was relegated to a relief role. This season the big Texan, now passed his 34th birthday, can hardly be expected to chalk up so many early wins, so even though Rowe and Auker can get down to business immediately, there will be a good many games to grab that Mr. Marberry accounted for in 1934.

Elden Auker, Tommy Bridges and the Schoolboy will be three of the starting hurlers with Joe Sullivan the most logical candidate for the fourth assignment. Crowder, Hamlin, Hatter, and Larkin will fight for the remaining first-string berth. Marberry and Hogsett are excellent relief pitchers, but Charley Fischer, Isidore Goldstein, and Jake Wade will find difficulty landing a Tiger job.

Manager Mickey and Ray Hayworth will again do the catching with Frank Reiber taking care of the bull pen chores.

The infield, too, will be the same as last season. If Greenberg, Gehringer, Rogell, and Owen can play 150 games, everything will be fine but if any one is forced out for a lengthy period, pennant hopes will decline rapidly. Salty Parker and Heinie Schuble are the reserves but the less they have to play the better satisfied Cochrane will be.

Again the outfield will be composed of Goslin, White and Fox. Two will be selected from the trio of Chet Morgan, Bob Seeds, and Gerald Walker to do utility and pinch-hitting work.

So the club will be just about as good as it was in 1934, which at that time was classy enough to win the pennant. Unless an outfield trade involving Walker is made, the pitching staff is the only department that will vary from the ability shown in 1934. And a hurling corps, whether good or bad, is always susceptible to changes in form. . .

The three big questions involving the Tigers are: 1. Can the hurlers perform their work like pennant winners should? 2. Can the team again go through a season without being forced to call upon incapable reserve material? 3. With Detroit seemingly of about the same strength as in 1934, have the other contenders improved sufficiently to overtake the Bengals?

Wilson Confident Phillies Will Be Greatly Improved

By DAVIS J. WALSH
International News Service Sports Editor.

WINTER HAVEN, Mar. 18.—Man and boy, manager and player, not to mention the on and off, Mr. James Wilson has been with the Philadelphia ball club so long that he's beginning to grow a bosom. He, therefore, can be presumed to speak with some authority in announcing today that this current edition of the Phillies is the best he has yet encountered. I don't suppose, however, that this statement is of the slightest importance. There have been times when the Phillies were so bad that nobody knew exactly whether to call in the coroner or the board of health.

I must have looked as though I was about to mention something of the sort, for Mr. Wilson suddenly stiffened and impaled me with a very stern eye.

Has Fast Infield.

"Don't kid these boys of mine," said he. "If you do, they'll make you regret it. What's funny, for instance, about Lou Chiozza, the best young second baseman in baseball, or a pitcher like Curt Davis, who won 19 games for our seventh place club last year, or another like the Indian, Euel Moore, who came up to us from Baltimore late in the year and kept throwing that ball right down their throats?

"What's funny about Dolph Camilli, the best first baseman in the league?"

This last remark, I suspect, comes under the head of the extravagant statement department, owing to the fact that, unless there is some misunderstanding about the matter, Mr. Terry of New York and Mr. Collins of St. Louis are still planning to play a little first base this year. Nonetheless, this Camilli is just good enough and his passing from Chicago to Philadelphia last year seems to have lost a club president his job.

Good Pitchers.

Anyhow, Mr. Wilson manager to trade a left footed drop kicker for a young man who hit .303 his first year out. In this and several other ways, Mr. Wilson contrived to have himself quite a year as manager. Somebody sold or traded one ball club right out from under him before he took charge, with those deals for Klein, Whitney and Virgil Davis.

But he came right up with another. He also personally developed Davis and Moore, the two best first-year pitchers in the league, exclusive of Paul Dean.

"My pitchers are going to be made to look very good by something the Philadelphia club hasn't had in years—an infield defense," Wilson went on. "I traded Bartell, my shortstop, for Blondy Ryan and Johnny Vergez and, before the year is half over, that's going to be funny. Why, Ryan alone will play more shortstop for me than Bartell can possibly play for Terry."

Penn State Nine Plays 17 Games

Prepares For Diamond Season —Bill McKechnie, Jr., Captains Team

(Special To The News)

STATE COLLEGE, Pa., Mar. 18.—With six of last year's baseball team on hand this season, Penn State is looking forward to a successful campaign. A 17-game schedule has been arranged for the Lion diamondmen.

The team will be captained by Bill McKechnie, Jr., son of the Boston Braves manager, who will hold down the first base sack for Penn State. Last year's infield will be intact with Johnny Stocker, basketball captain, at second; Frank O'Hora, shortstop, and Shorty Mikelonis at third. Two outfielders from last season also remain, Joe Bielicki and Pero Miller.

Coach Joe Bedenk has a problem on his hands to replace Keith Parks, outstanding pitcher for the last three years, who is a rookie with the Phillies. Jack Lutcher, another moundsman, was graduated last month, and last season's captain, Bill Kascsak, and Catcher Stan Zawacki were graduated in June.

Frank Smith, Altoona boy, who has already won varsity letters in football and basketball this year, is expected to carry the burden of the pitching assignments, although Stokes and Bachman, two relief hurlers from last season, are on hand. The catching assignment will be well taken care of by any one of three sophomores, Mike Kornick, Bernard Girton or All Ochroch.

Penn State will open its season on April 10 with Bucknell at State College. The remainder of the schedule follows: April 13, Susquehanna; April 17, Navy at Annapolis; April 18, Georgetown at Washington, D. C.; April 20, Washington college at Chestertown, Md.; April 27, Juniata; April 30, Lebanon Valley; May 4, Pennsylvania at Philadelphia; May 8, Gettysburg; May 11, Western Maryland; May 17, Colgate at Hamilton, N. Y.; May 18, Syracuse at Syracuse; May 22, Dickinson; May 25, Temple; May 29, Muhlenburg; June 1, Bucknell at Lewisburg; June 8, Syracuse.

Bennett Accorded Honor In New York

Bennett Selected As Best Player To Appear In New York

According to a letter received from John Kraft, of New York City, formerly of New Castle, Wes Bennett, star basketball player for Westminster college, was voted as the best center to appear in New York, this year.

Coaches and sports writers of that district voted unanimously for the Titan passer recently. Westminster played at Madison Square Garden.

Kraft's Team Captures Title

Before a crowd of 2,500 persons, Credit Department basketball team, in the Chase National Bank league, New York, of which John Kraft, former New Castle resident, is a memebr, won the 1934-35 championship by winning a close 33-28 victory over the Personnel Department quintet, it was learned today.

Kraft played a good defensive game and found the hoops for three field goals. The Personnel five won the title in 1933 and 1934. The league is composed of some of the best former college passers in the country.

"Y." Devil Dogs, Union Ex-Highs Win Floor Tilts

Beaver Falls Newells Hand Walloping To Sacred Hearts In Feature Game At "Y."

Three floor games were played at the "Y." Saturday night. In the feature game the Sacred Hearts of the New Castl Church league proved easy prey for the strong Beaver Falls Newells, 48 to 16. The Hearts were behind at the half, 32 to 6, and never threatened the invaders.

DiCiccio, the Beaver Falls ex-high center, was the big noise in the battle with 20 points, with seven field goals and six fouls. Scott, Maraconda and Howarth also played fine basketball for the visitors. T. Cooper and Viggiano led the Sacred Hearts in scoring.

The National Pants lost to the Union Ex-High Stars in the second game on the bill, 39 to 30, in a well played game, with the score at the half 19 to 18 in favor of the Pants. The Union Ex-Highs turned on "the heat" in the second half to lead 21 to 11, and take the victory, with Monico and Hughes the high scorers with 13 points apiece. Lannigan also played a fine game and had six points.

The "Y."Devil Dogs handed the Castletons a 39 to 28 defeat in the final game on the bill, with the score at the half 16 to 15 in favor of the hotel boys. Baptiste, Seneski and Kulich had 37 of the points for the "Y." Devil Dogs, with Hitchen and Nocera the best for the losers.

HERE AND THERE IN SPORTS' LAND

Jimmy Brown of Temple university is the Eastern Intercollegiate Basketball conference individual scoring champion for 1935. The forward scored 72 points in eight games to win the title, held a year ago by Joe Stydahar of West Virginia by a three-point margin over Claire Cribbs of Pittsburgh. Goode of West Virginia finished third with 66 points and this season Stydahar was fourth with 64 points.

Horse Racing in West Virginia will be under the supervision and control of a three-member racing commission under a bill passed by the recent legislature and which became effective today. The state's 3 per cent tax on the pari-mutuel receipts at tracks is cut to 1 per cent and in addition the state will require a license of $500 daily for the operation of tracks of one mile or longer and $250 on small tracks.

For the fifth consecutive year Lehigh university has won the championship of the Eastern Intercollegiate Wrestling association, having captured a meet at Philadelphia Saturday. Lehigh piled up 23 points, including two individual championships. Penn State took second place with 17 points and also won two individual titles. Columbia was one point behind Yale which took 13 points.

Gregory Mangin won the men's national indoor tennis title at New York when he beat Berkeley Bell 8-6, 7-5, 2-6, 0-6, 6-2...Reider Anderson bettered all ski records when he won the international ski jump at Panica, Yugoslavia, with a leap of 95 meters 311 feet)...Helen Jacobs won the women's singles tennis title at the international meet at Cairo. She beat Mrs. Herbst 6-1, 6-2.

The chief morsel for fistic folllowers this week will be a 15-round bout between Art Lasky, Californian, and James J. Braddock, New Jersey. They are docketed to scrap in Madison Square Garden, New York, as one of the limitation bouts to locate as worthy an opponent for Max Baer as there is in the heavyweight ranks today. The winner will probably meet Primo Carnera.

N. C. Merchants Take Victory

Gersons basketball team, one of the strongest in New Castle, leaders of the city league, will play the fast Polish Falcons at the Humbert floor Tuesday evening. The preliminary game will start at 7 o'clock.

The fans have been waiting for this important battle. The Gersons have contested the Polish Falcons claim to city championship honors, and the issue will be decided tomorrow night.

Coach Arnold "Fiz" Fraser will have his strongest lineup available for the Falcons, with Battley and Teplica at the forwards, Hutchison at center and Reiber and Shaffer at the guards. All of these boys are star performers and recognized stars.

The Polish Falcons with Tony Ostrosky as coach will present Rus Kawa and either Budai or Kendra at the forwards, with "Slim" Augustyn at center, and Kolodjeski and Sniezek at the guards.

The Falcons, fresh from their upset of the fine K. Pulaski team yesterday, will be out to take the measure of the Gersons, but this order looks awfully big at the present time.

Break In American Telephone To Lowest Level In Two Years Is Feature

(International News Service)

NEW YORK, Mar. 18.—A break in American Telephone to the lowest level in two years combined with a fresh collapse in cotton to bring a weak stock market today.

Many new lows for the year and longer were established, in such other issues as U. S. Steel, Bethlehem, Standard Oil of New Jersey and Auburn.

The crash in cotton ran to $2.50 a bale, and carried grains and other commodities down for substantial declines.

Selling in American Telephone reflected the pending government investigation of the Bell system and the pressure for rate reductions. The stock lost more than 2 points.

U. S. Steel and Bethlehem lost a point each to touch the lowest levels since 1933. Decline in the industry's operations and uncertainty over the outlook were the depressing factors.

The rails gave ground under the leadership of Atchison and Union Pacific, off more than a point each. General Motors and Chrysler were heavily sold and suffered sizeable declines. Consolidated Gas was firm but other utilities were under pressure. Allied Chemical fell 2 points in the chemicals, and U. S. Smelting more than 2 points in the mines.

Break Record On Fire Alarms

Firemen Answer Twelve Calls In Seven Hours And A Half On Saturday

OTHER FIRES OVER WEEK-END

All records for the number of calls for fire received in one day were broken here on Saturday, when firemen answered twelve alarms between 9 a. m. and 4:30 p. m., a period covering seven hours and a half.

One other alarm was answered later Saturday evening, which would make thirteen for the day.

Most of the fires were grass fires, the warm weather of the last two days of the week drying out the grass and making it highly inflammable.

In addition to the fires reported Saturday to noon, the following other alarms were answered:

Box 29, Highland and Meyer avenue, 1:45 p. m., grass; box 19, 1:50, West Leasure avenue, grass; box 27, 3:10, Euclid avenue, grass, box 74, North Cedar street, 4:15, grass; box 29, Denver avenue, 4:20, grass.

At 2:10, Saturday afternoon, firemen were called to the store of Fred Thomas, 110 West Washington street, when a cigaret butt, thrown on the cellar steps, set fire to them. The loss was approximately $10.

Firemen were called to Wilmington avenue at 1:55, Sunday afternoon by a grass fire.

Sunday evening at 9:50, the car of J. B. Harward, of 425 Hillcrest avenue, collided with a street car on Highland avenue, near Park avenue, causing a short circuit. Firemen were called and extinguished the fire which resulted in a small loss.

At 8:55 this morning, firemen were called to the home of Mrs. Hazel Southworth, of Winslow avenue, by an alarm from box 413. The hose to a gas stove in the bathroom pulled off and the gas ignited, setting fire to the floor of the room. A loss of approximately $10 was sustained.

(International News Service)

WASHINGTON, March 18.—After voting to extend the Public Works Administration until June 30, 1937, the senate this afternoon battled over a conservative Democratic proposal to slash $2,000,000,000 from President Roosevelt's $4,880,000,000 Work Relief bill.

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent

WASHINGTON, Mar. 13.—While Republicans fought a White House plan to extend the PWA until June 30, 1937, a senate coalition today demanded a $2,000,000,000 slash in President Roosevelt's $4,880,000,000 work-relief bill.

Attacking the administration's new work relief plans, Senator Adams (D) of Colorado, sponsored an amendment slashing the bill to $2,880,000,000. Opposition To Gas Tax Boost

Governor Refuses To Compromise On Measure, Despite Situation

FINAL HOUSE VOTE MAY BE DELAYED

By ROBERT F. GORMAN
International News Service Staff Correspondent

HARRISBURG, Mar. 18.—Gov. George H. Earle's proposed two cents a gallon boost in the state gasoline tax, $40,000,000 mainstay of his $203,000,000 tax program, encountered a storm of last minute opposition today as it neared a final vote in the Democratic house.

Although warned by party leaders that Democratic defections in the lower chamber may endanger passage of the measure, scheduled for a final vote at noon tomorrow, Governor Earle spurned a suggestion the proposed levy be halved to one cent as a compromise.

Bill Is Opposed.

It was known definitely that several members of the Democratic majority were opposed to the bill and that only with the most urgent demands from leaders would they switch their votes. House Democrats were not anxious to oppose the administration with all the state patronage still at hand but at the same time they explained they were fearful of the results at home should they be recorded as voting for an increased gasoline tax.

Arrest Eighty At Cock Fight

(International News Service)

UNIONTOWN, Pa., Mar. 18.—Eighty men were in jail cells today after state police raided a large barn near Star Junction, 16 mile from here, and found the men betting on game cock fights. More than 100 cocks were seized. Only one man escaped.

The raid was one of the largest of its kind staged in Western Pennsylvania. The prisoners said they lived in Connellsville, Greenville, Star Junction and Uniontown. Police think they gave fictitious names.

So intent were the gamblers on laying their bets that they did not notice the entrance of the police for some time. The cocks will be turned over to hospitals and charitable institutions for savory stews.

POWERS WILL OPPOSE GERMAN REARMAMENT

(International News Service)

The diplomatic telegraphs of Europe buzzed today as the powers prepared to unite in opposition to Germany's rearmament.

The situation in various capitals was:

London—the British cabinet met for two hours to discuss the best course of action under the circumstances, with the question of Germany's future foreign policy the paramount issue.

Rome—joint action by Britain, France and Italy freely predicted with cooperation from the United States demanded if an economic war is decided upon.

Moscow—through its official press, the Soviets extended an informal invitation to the powers to unite in "mutual guarantees of safety" against Reich aggression.

Geneva—rumors Germany has already begun construction of a secret naval force circulated as little entente representatives urged Foreign Minister Laval of France to visit Moscow as the first step in a new anti-German reorientation.

Berlin—oblivious to criticism, Germany proceeded with conscription plans, with revival of the pre-war army of 700,000 predicted if the other powers arm upward.

HARRISBURG, March 18—Voters in tiny Pike county in the northeast part of the state go to the polls tomorrow to name a legislator in a special election which, even if only in a small way, will be the first referendum on the administration of Gov. George H. Earle.

The issue transcends the election of a successor to Rep. Edward B. Labar, Matamoras banker, who died last month, in the eyes of both Democratic and Republican leaders who look upon the impending vote as a "straw in the wind" to determine public feeling.

The election was considered significant from other angles also. A Democratic seat in the house was at

The Arkansas counties, Craighead and Mississippi, were reported almost completely under water. The lowland regions of Woodruff county were being evacuated today.

Attempts to reach families reported marooned on Allen's Island in the St. Francis river, were futile and a fresh attempt was to be made today.

Farmers and National Guardsmen patroled levees to prevent any attempts at dynamiting to relieve flood conditions up the rivers or avert possible levee breaks in threatened areas below.

Laudermilch Is Sentenced

Lebanon Manufacturer Is Given 10 To 20 Year Prison Term

FOUND GUILTY OF SLAYING OF GIRL

(BULLETIN)
(International News Service)

LEBANON, Pa., Mar. 18.—Byron A. Laudermilch, elderly lingerie manufacturer, today was sentenced to a 10 to 20-year term in the eastern penitentiary, for the slaying of Emma Miller, a former employe with whom he had carried on an intimate six-year romance.

Imposing the m. ..um sentence possible under the second degree verdict returned by the jury, Judge Charles V. Henry told Laudermilch the jury would have been justified in finding him guilty of first degree murder.

Laudermilch Motionless.

Laudermilch stood as if transfixed as sentence was pronounced five minutes after his attorneys withdrew a motion for a new trial. He stood motionless as Judge Henry's lashing words echoed through the courtroom.

His wife and children, who had come dramatically to his defense during the trial, were not in the courtroom when sentence was pronounced.

Immediately after sentence was pronounced Laudermilch was led away to the Lebanon county jail, there to await transfer to the eastern state penitentiary, probably on Wednesday.

The girl, in a death-bed statement read to the jury, blamed Laudermilch for her death. The statement told of several trips they took together as man and wife.

Treaty Scrapping Turned On Powers

Action Of France And England In Debt Issue Proves Boomerang

(International News Service)

WASHINGTON, Mar. 18.—Disregard of the sanctity of treaties shown by France, Great Britain and the other former European allied powers in connection with the $11,000,000,000 owed Uncle Sam was held in authoritative quarters here today as likely to have had an important bearing on Germany's rearmament in defiance of the Versailles treaty.

Europe's outcry over Germany's decision to default on the military clauses of the Versailles treaty evoked considerable surprise.

American official were inclined to believe that the former allies had no one but themselves to blame since they, especially France, were the first to inaugurate the policy of making scraps of paper out of treaties by defaulting on the American debt agreements.

The howl set up by France particularly was seen here as a striking example of the shoe pinching when its on the other foot.

Great Britain Acts Swiftly On Hitler's Decree

Note Despatched To Berlin On Conscription Program To Boost Army

FRANCE AND ITALY JOIN IN MOVEMENT

Contents Of British Note Not Divulged; Germany Prepares To Arm

(BULLETIN)
(International News Service)

LONDON, Mar. 18.—The British government this evening lodged a formal protest with Nazi Germany over re-creation of the Reich's powerful army.

A short while after Prime Minister MacDonald announced in the House of Commons that steps were being taken to protect the civilian population of Britain from air raids, the foreign office made public the text of a note sent to Berlin earlier in the day.

Delivered to German Foreign Minister Von Neurath by Sir Eric Phipps, British ambassador to Berlin, the note declared his majesty's government "feels bound to convey a protest to Germany against announcement of the decision to adopt conscription."

By HUDSON HAWLEY
International News Service Staff Correspondent

LONDON, Mar. 18.—Acting swiftly and in concert with France and Italy, Great Britain has dispatched a note to Berlin regarding Chancellor Hitler's conscription decree, it was announced in the House of Commons this afternoon.

Tenor of the note was not revealed. Foreign Secretary Sir John Simon merely told the house that Sir Eric Phipps, British ambassador to Berlin, had been instructed to deliver the communication to the Hitler government this afternoon.

The note was drafted at a special two-hour cabinet session during which the spectacle of a new German army of pre-war strength was discussed in detail.

Soon after Commons assembled, George Lansbury, Laborite opposition leader, asked what the government's intentions were regarding the conscription announcement.

In Communication

Sir John replied that the government had already been in communication with the French and Italian governments and had instructed Sir Eric to deliver the note to Hitler. He said it would be made public as soon as Phipps advises Hitler has received it.

Previously, Captain Anthony Eden, Lord Privy Seal, had returned a

There's green shoots in the garden where the winter snow has laid, there's work out there a calling for a mattock and a spade. The bushes all need trimming and the iris shows its head, and there's life and action where last month the ground looked drear and dead. There's jonquils up and ready for sun and warmth and rain, and grasses long since wilted down are showing life again. The calendar says winter, but the spring's not far away, and the plants are getting ready, weather forty-three today.

FORTY SEEK CHANCE TO BROADCAST

Auto Show Ends Saturday Night

Local Entertainers Are Featured On Program As Exhibit Comes To Close

ANOTHER BIG CROWD ATTENDS

New Castle's big automobile show, which opened last Thursday, came to a close Saturday evening with another large crowd in attendance. Radio tryout night was observed, when more than forty were given an opportunity to do their stuff before representatives of one of the large broadcasting chains.

The names of the winners were held in abeyance and will be informed later of their success.

In addition, the regular entertainers were present during the evening, adding to the program.

There seemed to be a bigger interest in the various makes of cars Saturday evening than at any time during the show, and many of those present clustered about their favorite style of car to learn more of the facts about its operation and construction.

The show has proven one of the most successful ever held by the local dealers and is expected to result in many sales during the spring.

SEE REFERENDUM ON EARLE'S LEADERSHIP

(Continued From Page One)

stake, for one thing. At a time when the majority needs every vote it can muster. There are 117 Democrats in the house now, 12 more than a constitutional majority, but several are ill.

May Affect Montgomery County

The results tomorrow may even have indirect political effect on the election to be held soon in Montgomery county, to name a senator to succeed the late James S. Boyd. If Republicans can overturn the usual Democratic majority in Pike, the effect would be stimulating in Montgomery county. If Democrats can increase their normal margin, the result would be somewhat discouraging to the G. O. P. in normally Republican Montgomery.

Pike county lists a Republican majority registration sheets of 477 votes, with 343 voters classified as non-Partisan. The county usually goes Democratic, however, labor having served since 1927.

Libar's opponent of last fall, Ralph E. Kelder, Matamoras railroad conductor, is the Republican candiate at the special election. He was beaten by 100 votes last November. Opposing him is Joseph H. Vogt, of Shohola, the Democratic nominee.

See Sentiment Shift

Republicans assert a victory in Pike would prove that sentiment which swept Governor Earle into office as the first Democratic executive in 40 years is swinging away from him. M. Harvey Taylor, G. O. P. state chairman, laid down that premise when he went into Pike county to appeal for a Republican victory to show that Govenor Earle's program, particularly his new tax proposals, did not meet public approval.

Democratic leaders were to stage their appeal for support for the governor at a closing rally today. State chairman David L. Lawrence was scheduled to be present.

OPPOSITION TO GAS TAX BOOST

(Continued From Page One)

cratic majority behind the bill will be made tonight at the regular party caucus. Should a rally disclose the measure to be in jeopardy, legislative leaders will postpone the vote tomorrow rather than risk an unfavorable result which could be interpreted as a defeat for Governor Earle.

Sales Tax Again.

Opposition to the gasoline tax boost again encouraged proponents of an emergency sales tax which the governor has continued to oppose as "sock the poor" levy. Some members of the Democratic majority told administration leaders over the weekend they would support the governor's tax program in full if given assurance the executive would reverse his attitude towards the sales tax which they advanced as a means of reducing some of the proposed "nuisance" taxes.

Preceding the gasoline tax bill as a special order of business tomorrow were the measure increasing and extending the gross receipts tax to gas, water and steam heating companies, both public and private, to raise more than $3,000,000 in the biennium; the tax on amusements to bring in more than $11,000,000 and the tobacco tax rated at $6,000,000.

Strategically, the gas tax impost has been placed last on the special order calendar, and whether or not it will be acted upon tomorrow or sent back for amendment hinges on the amount of opposition to the bills preceding.

Up For House Vote.

Four of the governor's tax bills designed to yield $7,000,000 by increasing fees for heavy motor trucks and buses and limiting their size were on the calendar for a final vote as a special order of business at 9:30 tonight with passage apparently assured despite bitter opposition of truck and bus owners.

The administration personal property tax bill, expected to yield about $50,000,000 for the state and as much for the counties, was in position to be called up for a final vote this week. The bill would tax stocks, bonds, money at interest and similar items.

In the senate the Woodward-Howell "anti-party raiding" bill was on the calendar for final action tonight. All candidates for public office, except judges, would be prevented from seeking election on more than one party ticket by the measure which has both Republican and Democratic support. A number of appropriation bills and several Harris election reform bills were listed for second reading.

Hearing On Eroe Bill.

Public hearings will be held in the senate tomorrow afternoon on the Eroe and Fitch "full crew" bills, reducing the size of trains and increasing the size of crews. Tomorrow night the finance committee will hold a hearing on the administration $4,000,000 "chain store" tax bill which has passed the house. The house labor committee was to hold a public hearing on the Barber administration bill, prohibiting industrial home work, at the close of tomorrow's session of the house.

GOVERNOR OF OHIO FILES LIBEL CHARGE AGAINST HOPKINS

(Continued From Page One)

tion of federal relief removed from Ohio and placed under federal jurisdiction.

Challenges Hopkins.

"Come to Ohio if you dare and show that you are a man, or turn and run like a coward and confess your contemptible character," Davey's telegram to Hopkins concluded.

A copy of the Davey telegram was given the press by his executive secretary, Mrs. Myrna Smith, who said the governor had gone to Newark to personally swear out the warrant for Hopkins' arrest. He was expected to return to the capital during the forenoon.

In the telegram the governor told Hopkins he was aware that criminal libel is not an extraditable offense, but he challenged the federal relief administrator to come to Ohio, submit to arrest and try the case in open court.

"You have done me a grave and unforgivable wrong," he wired Hopkins, "and if you have any of the instincts of manhood you will permit this wrong to be righted.

"Please remember that I am in business and that my reputation for integrity before the American people is priceless, in connection with this business from which my living is made."

The governor is head of the Davey Tree Surgery Co., at Kent, O.

Charges Corruption.

Washington, Mar. 18.—Possible criminal prosecution based on Federal Relief Administrator Harry L. Hopkins' charges of corruption in Ohio's state relief was "entirely up to the Ohio state, and county, prosecutors," it was stated at FERA headquarters today.

Hopkins sent affidavits and other evidence supporting his charges to Ohio wtih Charles C. Stillman, whom he named as acting federal administrator for the state. The evidence was to be turned over to Attorney General John W. Bricker.

Administration of the funds after they are turned over to the state is a state responsibility, and any violation would be a violation of state or local laws, FERA officials explained.

When he made public his charges Saturday, Hopkins said:

"Once the funds are transferred to the state, their disposition is a state matter. The responsibility is the governor's."

Hopkins, in his letter to Governor Davey advising him that the federal administration was taking over administration of the federal funds, told him that his evidence of corruption was "incontrovertible".

SLASH IN WORK-RELIEF TOTAL IS SOUGHT

(Continued From Page One)

FERA to provide relief "according to the needs" of persons on relief rolls.

Startles Senate

Adams rather startled the senate by revealing the FERA has been providing jobs, at prevailing wages, for 2,225,000 out of the 3,500,000 employables, the new bill would employ. He added the employment of the 2,225,000 at prevailing wages and direct relief to 18,000,000 others on relief rolls had cost the federal government only $1,069,000,000 in 1934. States, counties and municipalities helped out, he said, by contributing about $400,000,000.

"It is fearfully wasteful to pay out $4,880,000,000 to care for the same number of persons, when $1,069,000,000 did the job in 1934," said Adams. "I propose to slash the fund to $2,880,000,000 so the administration will be forced to continue President Roosevelt's present policy of providing made-work for heads of families on relief rolls. They are providing jobs for 2,225,000 right now and they can provide jobs for the other 1,175,000 under my amendment."

"The present plan has proved successful," said Adams. "We were told by no less authorities than Secretary of the Interior Ickes, relief administrator Hopkins, his assistant, Gill and Admirable Peoples. I can see no reason for changing it and I see great danger in adopting a new program, calling for construction of costly public works merely to provide jobs for every unemployed."

RUTH G. MACDONALD AND W. T. LLOYD WED

A wedding marked by simplicity of interest to many, took place Saturday morning, March 16, in the parsonage of the First Congregational church when Miss Ruth G. MacDonald, daughter of Mr. and Mrs. John MacDonald of 412 Galbreath avenue, became the bride of William T. Lloyd, son of Mr. and Mrs. William Lloyd, 1327 Pennsylvania avenue.

The Rev. R. T. Williams, pastor, officiated with the impressive ring ceremony, and the couple had as their attendants, Mr. and Mrs. David Johns, the latter a sister of the groom.

The bride was attractively attired in a blue crepe ensemble with gray accessories, and wore a shoulder corsage of Talisman roses and sweet peas. Mrs. Johns chose her costume in gray and a shoulder bouquet of Johanna Hill roses and sweet peas.

Mrs. MacDonald, mother of the bride, was stunning in a black satin gown while the groom's mother, Mrs. Lloyd, appeared in gray triple-sheer.

Supplementing the ceremony, a wedding breakfast was served in the home of the bride's parents, with covers being laid for fourteen. The wedding cake, topped with a miniature bride and groom, flanked by candelabrum holding ivory tapers, formed the attractive centerpiece. Spring flowers were used in decoration throughout the house.

The bride was graduated from the New Castle hospital for nurses in the class of '28, and the groom, a graduate of the local high school in '25, is affiliated in the offices of Morgan-Burrows Motor company of this city.

Later in the day, the couple left for a short wedding trip, and for traveling, the bride selected a smart black and white ensemble with harmonizing accessories.

Upon their return the young couple will take up residence at 412 Galbreath avenue.

RELATIVES OFFICIATE AT WEDDING CEREMONY

MRS. S. E. McCLEARY 91 YEARS OLD TODAY

Today, March 18, marks the 91st birthday of one of New Castle's oldest and yet spriest residents, Mrs. S. E. McCleary, of Highland avenue.

Indicative of her good health and ability to still travel and visit around among relatives, Mrs. McCleary is now in Braddock visiting her son Thomas G. McCleary since last Thursday. She expects to remain until the latter part of the week. Although no particular celebration of the day was planned, yet the family enjoyed an elegant dinner together at noon.

Mrs. McCleary has always been one of the most active members of the first Presbyterian church and taken a prominent part in New Castle activities. She is a Real Daughter of 1812.

After showering Mr. Gardner with many gifts, the group spent the hours with games and music. Those who helped to make the occasion delightful were Gladys Nelson, Patricia Brown, Janet Chreiman, Sara Natche, Marjorie Vaughn, Marjorie Allen, Eldred Ubry, Jack Ligo, Glyn Wyrie, Ben Jenkins, Jess Kelly and Thomas Allen.

At the midnight hour, Mrs. Allen assisted by Mrs. H. B. Williams and Marjorie Allen served an appetizing repast, appropriately appointed with St. Patrick colors.

Old Time Fiddlers To Compete Friday

"I love mountain music" is the way the song runs. Everybody does, for somehow the strains of those old time fiddles does things to the feet. It has been a long time since the old time fiddlers got a break in New Castle and realizing this, the management of the Regent Theatre has arranged to stage a contest to determine who the champion old time fiddler of the city is.

The first of three eliminations starts on Friday night, March 22, in the Regent Theatre at eight o'clock. The competition is limited to old time fiddlers over 45 years of age. Registrations are open now but the registration list closes Thursday night, March 21.

Each contestant will play one selection and the audience will be the judge. The first prize winner will be the champion and will get a ten dollar cash prize in addition to the title. Second prize is $5, third prize $3, fourth prize $2.50, fifth prize $1. Tickets of admission will be given to the other competitors.

Get interested now. If you are an old time fiddler, get in. If you know an old time fiddler, get him interested. Lets find out who the champion is.

A LOT OF MONEY

THE considerable volume of words printed concerning the proposal to turn over an immense sum of money to President Roosevelt for public relief has produced two rather curious results.

One has been the several calculations of how much money this much money really is. The other has been the several ways which writers have discovered of writing the sum. For instance, one may say $4,880,000,000 which is a long string of figures. He may conceivably, say four billion, eight hundred and eighty million dollars, which is a long string of words. He may say "nearly five billion dollars," which is not accurate and which may get him accused of trying to exaggerate for the purpose of embarrassing the administration.

He may say "more than four and a half billion," which likewise is not accurate and which is understatement. He may say 4.8 billion dollars, which strikes us as pretty good. Or he may say 4,880 million dollars, which is novel and enlightening.

Probably there are other ways of saying this stupendous sum of money, and we suspect that before congress has exhausted itself debating it all of them will have been employed. We had remarked before that any way you look at it, it's a lot of money. Any way you say it, it's still a lot of money.

HAPPY ENDING TO THE GIFT STAMPS

When Postmaster General Farley made gifts of imperforate stamps to his friends he brought down the wrath of stamp collectors on his head. Being rare these special stamps became valuable. To atone for his blunder he ordered duplicates of those he had distributed placed for sale at the philatelic agency of the Post Office Department.

The response of the public recently nearly swamped postal officials. Fifty of the leading stamp dealers hurried from New York to be on time for the sale. Crowds gathered at the windows hours before they were opened. It was a reminder of the rush for World Series tickets. The estimate of a half million dollar profit to the government must bring a smile to the patronage general. While other members of the cabinet wrack their brains for recovery formulas, Farley stumbles into prosperity.

ANOTHER BOY KING

Another 11-year-old boy leaves school to become a king, just as little Peter of Yugoslavia was called from a boys' school in England to become King Peter II when his father was assassinated.

Prince Ananda of Siam, nephew of the abdicated King Projadhipok, is in school in Lausanne, Switzerland. Ananda has traveled more widely than Peter. He even lived in Cambridge, Mass., while his father was attending the Harvard Medical School.

It can't be very agreeable to any little boy, even a prince, who is living fairly normally with other youngsters, enjoying school days with their sports and fun to offset their studies, to be snatched off to a throne. Youngsters may think it is fun to be a king, with lots of power and wealth. They do not know about the tedious routine, the conventions that must be observed, the responsibility and the dangers.

Or perhaps they do know more than it seems. Boys play pirates, or cops and robbers, or Indians, or cowboys, or soldiers, but do they ever play kings and princes? Not in America, certainly.

TOO MUCH "HEART BALM"

It is an accepted fact that many of the so-called "heart balm" suits are instigated as mere money-making propositions. Breach of promise suits have been made into clubs which are wielded over the heads of victims who have been sufficiently indiscreet to make a false move that could be turned into evidence in favor of the racketeer.

Letters containing endearing terms are an asset to those who attempt to benefit financially by the frailities of the male sex. There is a strong suspicion, some may say it is more than suspicion, that in numerous cases the victim is deliberately led into making some statement, preferably upon paper, that will provide the grounds for such court action.

We are not insinuating that all breach of promise suits have the gold-digging racket as their motif. There are some men who hold love lightly and are not above breaking their word when it is given to some woman. This is not written in defense of this type of man. He should be made to pay for his dereliction.

In Maryland and New York legislation is pending which has as its object the curbing of "heart balm" suits. It would be a good thing if other states would seriously consider putting a check on this form of racket.

Congress has lost hope of an early adjournment, the public generally having never entertained it.

Housewives are reported changing their buying habits to meet rising costs. And some of them are just giving them up.

Secretary Wallace helped to bring March in with a roar by predicting that food prices in the first half of 1935 will rise 11 per cent over those for the last half of 1934.

A naturalist reports that mosquitoes can obtain ample nourishment without preying upon human beings. Their summer night attacks upon our anatomies, then, are just an evidence of the natural cussedness of the critters.

The World AND THE Mud Puddles

A CHINESE CUSTOM.

A witness in court in Montreal, Canada, Lee Gim, refused to take the customary oath that he would "tell the truth, the whole truth and nothing but the truth." He said, however, he would be willing to take the Chinese "oath of fire".

With the court's permission, he obtained a piece of paper, touched a match to it, and as he held the burning sheet mumbled a statement in Chinese, which, interpreted, meant: "If I do not tell the truth, my soul will burn in hell like this piece of paper".

Correctly Speaking—

When the conjunction "that" is separated by intervening words from the subject and predicate which it introduces, guard against the careless repetition of "that."

Yes, buying farms for tenants will effect a great change. The tenant will end the year in debt to a different landlord.

A MAN OF CHARACTER

SOMETIMES, when I hear men and women discussing human character, I think of an old innkeeper who used to live in the lovely Napa Valley.

He was famous, that old fellow, and proud of his fame. He wished nothing more than to keep an inn to the last day of his life, a place of perfect service in which he might prepare and sell the best of food and enjoy the delight of his guests. . . . That was enough for him, and he was an artist in his profession.

Yet he had one annoyance, and it rankled deeply. . . .Not many miles away was a well known sanitariuun. And to this place came men and women, rather often, who had dined too well and abused their bodies and were suffering from diabetes. Part of their treatment was to eat carefully, to abstain from rich food and drink. If they did not do this, if they violated the orders of their physician, their chances of getting well were almost nothing. . . . This was before the days of insulin, and they knew they were not supposed to enter the old innkeeper's place.

But some of them were weak. Their appetites were stronger than their characters. Friends would call for them in fine automobiles to take them for a drive in the valley, and they would come to the old man's inn. He could spot them the moment they entered by a greedy and defiant look in their eyes. . . And he DESPISED them. He knew that this good food of his was poison to them. He knew they were not enjoying his meals as free and healthy and joyous mortals, but as doomed men and women who were too weak to do what was right. So he suffered and grumbled and was as rude as he dared to be. He felt cheapened by their presence, and when they were there—eating his roasts and his pastries and drinking his good red wine, he wished he were anything else but an innkeeper.

But by that noble contempt he showed forth the sturdy character that proved the old innkeeper a man.

KEEP IN STEP WITH THE CHANGING WORLD

You are becoming grouchy and faultfinding and you see little commendable in the youth of today.

You object to the manner in which people amuse themselves.

New methods come in for your censure.

The old way, you believe, was good enough — workmanship was better, material more durable and expense less.

It requires very little to put you in an argumentive mood.

Modern matters are especially irritating, and you see little in the future that looks encouraging.

But why have such pessimistic opinions?

Are you making things any better by crepe-hanging everything?

Why not modernize yourself?

Admit that changes must come; be willing to try them out.

Don't stand still while the world moves.

Steady progression with higher standards should be your motto.

The "good old days" were good enough for that period, but people are past the log cabin era and have already stepped up into a higher plane.

A new world has grown up around you—don't lag behind.

HIS WAY

He never let his care disturb his joy
when it was time to play,
He never hid the morning sun behind the clouds of yesterday;
He never let the bad in men blind
him to neighbors fine and good
He did his share of grieving but he
laughed as often as he could.

Because one man had played him
false he didn't say all men are base,
He frowned on what he thought was
wrong yet met the good with smiling face;
He didn't talk about the pains he'd
had when he was feeling well,
Nor make of life a tragedy because
he had some woes to tell.

He lived his life from day to day,
met what he found without a whine,
Was grieved when grief was his to
bear and happy when his skies were fine,
He fought when there were wrongs
to right and toiled when there was work to do,
Yet made the most of what was
good, and kept his troubles out of view.

Hints and Dints

Sun sets tonight 6:09. Sun rises tomorrow, 6:05.

It is said that liquor sales in the state store here are about one thousand dollars a day. Applied to commodities this would buy two automobiles or ten washing machines or good radios, or about three thousand bushels of potatoes, or ten thousand loaves of bread. There are a lot of things that can be done with a thousand dollars, but we presume that the people who buy the "likker" think that is one of them.

The young lady of today doesn't wait until the young man asks for her hand, she rather waits until he shows his hand first.

"How are you fixed, old man?"
"For What?"
"Why-er-I'd like a loan of $10."
"Just fine, I haven't a cent with me."

Prof. J. W. Crawford, Beloit College philosopher, advised students recently that the art of living consists of 'finding the place between too much and to little." The big trouble about that is that most people's idea of proportion is sadly warped.

"No," said the deacon of a New Castle church, "I don't approve of racing in my automobile, but when another member of my church becomes so godless as to try to pass me on the road comin' home from meeting', I feel it my duty to step on the gas, just to keep him from puttin' his trust in earthly things."

A fellow can stand a lot of noise if it means money to him. For instance, the cackling of his hens in the barnyard.

Some folks seem to have no sense of humor. Out in Denver the Bar association is kicking on the castor oil treatment administered by a municipal court. 'Such practice has made the municipal court a show place, or a place for public entertainment" says a report. And why not, you don't have to go out of New Castle to learn that lots of people like to see other people take castor oil.

For all the good it ever seems to do him, a man might as well have his conscience removed along with his appendix.

We heard of an East Side woman who is going to marry an ex-burglar, because she thinks he'll be quiet around the house.

The six sweetest words in the world are, "I love you," and "enclosed find check."

It is said that the hens in a lot of Lawrence county barnyards are getting quite chesty, since their owners have registered their brands with the sheriff. It ought to be a lot of satisfaction to the aforesaid hens and their husbands to know that the thief who puts them in the pot may be traced through the farmers brand.

What this country needs is a few smart and cleverly plausible leaders who aren't on the wrong side.

Isn't it about time to call that play Long Green Pastures?

People who complain of their lot in this world, should have been a hired man in the days of 1814. One John Pratt, Boston merchant, outlined the duties for his hired man in the following memorandum:

"Clean the brass, go and come when the bell rings. Make fires—bring in wood from woodhouse for use as it is wanted and chips. Bring in water from pump in yard—bring in water from cistern. Jog the pump every time you go for water in the yard—trim all the lamps. Clean and sweep and wash front steps and side walls. Shovel snow and take care of the garden, rake grass, prune trees, etc. See that boys don't climb over and steal the fruit. Go to market and be quick about it and buy as cheap as you can. Do not go out without asking leave which will not be granted. Do not be out nights after nine o'clock if I ever let you go. Be honest industrious and saving. Bring up coal for the parlors and chambers. Go to church, be civil, and tell the truth. See which way the wind blows. Turn the machine for washing clothes. Go to bed when I do and see that you get up early. Mind Mrs. Pratt—but come to me first. To wind up—you will do willingly everything required whether it is mentioned here or not."

One of our state senators who was convicted of violating the prohibition law, which was nullified by the repeal of the law, refuses to resign, stating that the majority of the citizens of Delaware county, where he resides, desire representation in this most important session of the general assembly. The best parties were staged in the sugar camp, with a big wood fire crackling under the simmering kettles. Women nowadays seem to have it pretty soft in comparison with the wives of our hardy pioneers. An old-timer who has passed his four-score years told us yesterday that when he was a young man his wife would get up in the morning at four o'clock, milk 10 cows, feed five horses, scatter grain to a flock of chickens, get breakfast for two farmhands and be ready to begin the day's work before six o'clock. "Poor woman, she's dead now, but she sure was a good wife," he observed.

NEW YORK, Mar. 18.—We'll get news comments out of the way quickly today, for we have two important letters.

A Negro died in a dark cell while on a bread and water diet at a North Carolina state prison camp, prison commission members learned by chance when they visited the camp to investigate charges of brutality. The brutality charges arose from the fact that two other Negro prisoners suffered amputation of their feet after being frozen while chained by the ankles in dark cells. The superintendent says he can't understand why the prisoner who died did die. He merely was handcuffed to a cell door for 10 hours a day with arms 48 inches above the floor—and he was given a "full" meal of bread and water twice a day. . . .

PST! LISTEN TO THIS

Of course there have been many agitations for deporting foreigners, but it has remained for Representative Hamilton Fish, Jr., of New York, to suggest the deportation of Americans, particularly Democrats, or such Democrats as those who drew up the federal work relief bill. Since it is believed that President Roosevelt is the inspiration of the bill, and since his family dates back to the beginning of the United States, it looks as if there won't be anybody left in the country—after we all finish deporting one another. . . .

"DE LAWD"

Many other writers have written on the passing of Richard B. Harrison, "De Lawd" in the five-year-run of the play, "The Green Pastures".

This writer—who has interviewed thousands of persons — found this great Negro actor to be one of the saintliest characters he ever had interviewed.

But Harrison did not imagine himself to be "De Lawd". He looked upon himself more as a shepherd to his people. He already was old when success caught up with him. He had gained the wisdom that comes with "de misery" of life. And he had a great interpretative ability, a gentle understanding, a spirituality that we associate with genius or divinity.

"De Lawd" and I chatted for a long time. But always he was thinking in retrospect. He was dreaming not of the joys of heaven but of the happy, difficult days of his youth when he aspired high for a man of his race and finally accepted the menial tasks of being a porter on a western railroad. Then, in his aging years, the genius that had lain dormant for half a century sprang to life again—when opportunity presented itself by mere chance. That was the miracle.

YOUTH SPEAKS

Our recent discussions of colleges and youth and hardships have brought us many comments.

Alfred McGinnis of Elyria, O., writes:

"It was with deep interest that I read your column conducted by Mr. Merryfield of Lorain, O. . . .

"Thousands of young people throughout the nation, upon graduating from high school are faced with the problem of trying to eke out an existence without being equipped in any way for such a responsibility. Normally a large percentage of these would be absorbed by industry or commerce. . . .

"With business in its present lethargic state, the few positions available are tendered only to the holder of a college degree.

"The Lost Generation? Surely. At least a bewildered and slightly embittered one. The writer is by no means 'red', or even tinged with 'pink'. He merely is one of the thousands who live in a dark today, with one eye cocked for tomorrow's awaited sunshine. And he occasionly stares at his mental reflection with the question, "Little man, what now?' "

COLUMBIA ANSWERS

And now we hear from Columbia university in response to our thought that university story writing courses never "made" a writer.

Edward A. Richards, associate director in charge of home study, dashes off these notes for us:

"To put the matter briefly, we exist not to discover or to promote genius, but rather to try to help the less competent become competent and complete in expression. As you may guess, all kinds of manuscripts flow into this office, and we have the temerity to discourage some of the ambitious and to encourage others. As a lady says in a letter which is now before me, a liking for a certain kind of thing is quite different from a talent for the same thing.

"Another letter also before me says that we should never discourage anybody, and that no matter how poor the accomplishment, the wish to write is 'a divine given urge to achieve'. Maybe this latter correspondent is right, but I don't think he is.

"There seem to be many people around with considerable energy and originality of conception, on the other hand, who for one reason or another have not succeeded in coming to feel at home in their own medium. These people we can help. . . . This morning, for example, I took a good deal of pleasure in telling a man from Ohio that we should be glad to have him in a course in the technique of the short story. He has a fine sense for character and isolated situation, but has not paid enough attention to the entire design of his work . . ."

Yaw-suh, professor, yaw-suh. Maybe the readers of this column believe I should take your course.

TODAY Is The Day

By CLARK KINNAIRD — Copyright 1935 — Central Press

MONDAY, MARCH 18

Today's Yesterdays, March 18, 1452—Amerigo Vespucci was born in Florence, Italy, destined to provide a name for two continents—The Americans.

He didn't make the voyage which caused the country to be named for him! He wrote a letter about a trip he said he made in 1497 to the western country. It went to one Soderini, a former schoolfellow in Florence, through whom it fell into the hands of Martin Waldeseemuller, German geographer in a French school. Waldeseemuller used the letter in his "Introduction to Geography", published in 1507, and suggested that the new land be named for Amerigo. It was. But all Waldeseemuller intended should be named America was Brazil!

There is proof Vespucci was in Seville all the time he said he was on this imaginary voyage to the west!

March 18, 1831—James Swan died in Paris, aged 77. He was the Scotsman who in 1795 paid the entire national debt of the United States to France $(2,000,000) out of his own pocket!

March 18, 1818—Congress granted $20 a month to all officers and $8 a month to all privates who served nine months or more in the Continental army or navy in the Revolution, on proof of need.

This was the first pension act enacted by congress.

March 18, 1837—Stephen Grover Cleveland was born in Caldwell, N. J., a descendant of Moses Cleveland, who settled in Woburn, Mass., just 300 years ago this year.

He had an artificial rubber jaw, put in when his jaw was cut away because of cancer in a secret operation performed while he was president. He lived 15 years after the operation.

Notable Nativities—John C. Calhoun, b. 1782, seventh vice president of the United States. He lost the presidency because his wife snubbed Peggy Eaton, red-haired friend of President Andrew Jackson...Nicholas Rimsky-Korsakoff, b. 1844, distinguished Russian composer.

George Olsen, b. 1893, band leader ..Neville Chamberlain, b. 1869, British statesman...Dr. Richard Strong, b. 1872, Harvard specialist in tropical diseases...Judith Arlen, b. 1914, Cinemactress.

You're Wrong If You Believe—That there is an Aryan race.

A. W. Fogle, Battle Creek, Mich. doubts this statement. Well, Friedrich Max-Muller, celebrated German Gentile philologist (1823-190) used Aryan to designate the whole body of languages more commonly known as Indo-European; and he used Aryas to denominate those who speak Aryan, without respect to ethnological origin.

That any one knows what Columbus looked like.

WARNS ON FOREST FIRES

Editor Of The News,
Dear Sir:

I would be grateful to you if you would give the enclosed article a space in your paper.

Do to the many fires that occurred Saturday in our nearby woods. I think that the public should be informed of the seriousness of forest fires.

Yours very truly,
OWEN P. FOX,
City Forester.

I am doubtful if the public knows the seriousness in starting Forest fires. The State of Pennsylvania will pay for information leading to the arrest of anyone who willfully starts a fire in the woods.

Last Saturday this district had a lot of bad grass and wood's fires. In the Cunningham Park district there were four fires burning at different place at one time.

Ralph M. Davis reported to me bad fires that he fought in the eastern part of the city. On Saturday night there was a bad fire burning near the Walmo district on the New Wilmington road. This fire endangered property as there is no fire protection in that location.

It is very hard to apprehend persons that start forest fires, but as forest fires do not start alone, someone is responsible.

It would be well for parents to inform their children about starting fires in the woods. Also one must get a permit from a land owner when a fire is to be started, so as a protection to yourself if visited by a Forest warden.

How deal with habitual criminals? Well the insane aren't confined for some offense, but only because they are a menace.

Minstrel Show Attracts 1,400

Keystone Entertainers In Annual Performance On Saturday Night

Minstrel shows of the old-fashioned type were given new life when the Keystone Entertainers, veteran minstrel group here, took to the Cathedral stage on Saturday night to present before an audience of almost 1,400 persons its annual minstrel performance.

The show, with Bert Sanford as its manager and director, greatly pleased the large audience that turned out to witness the antics of the local players and to help, at the same time, to promote the minstrel cause here. Dave Jones was the show's music director.

Hugh Hannon played the role of interlocutor and the cast of singers and comical end men who assisted performed at their best. The solo and chorus numbers were heartily applauded.

While the first part was given mostly to chorus and quartet singing, the second part brought "Rational Barn Dance' in which the minstrel men impersonated a hillbilly orchestra in a radio broadcast. Solo numbers rocked the hall with laughter and encores were repeatedly demanded. An orchestra assisted.

Quartet singers were Mr. Sanford, Dave Jones, Chester Biddle and Louis Sweet.

Featuring were the vocal solos which 20-year-old Willie Parsons, Pittsburgh's "boy tenor" sang. He sang appropriate St. Patrick's day tunes that met roars of approval.

Solo singers in the show were William Jones, Carl Gilmore, George Roof, Emil Lelenko, Hayden Jones, Harry Elwell, Harry Wyman, Mr. Sanford and others.

Another Tax Bill To Be Introduced

Out-Of-State Trucks Would Be Taxed On Travels Through State

(International News Service)

HARRISBURG, Mar. 18—Another of the administration tax bills, Gov. George H. Earle's proposal to tax out-of-state trucks on their travels through Pennsylvania, today was scheduled for introduction in the house tonight.

The bill, designed to raise $3,000,000 a biennium, leaves a graduated impost ranging from two mills per mile for commercial vehicles of less than 5,000 pounds to six cents per mile for vehicles over 36,000 pounds. Solid tired trucks would pay rates 50 to 66 2-3 per cent higher.

Exemption is provided for all commercial vehicles of other states which also are licensed in Pennsylvania. This includes virtually all buses. It was expected that many truck owners will register their vehicles in this state to avoid the mileage tax if it is passed.

The bill provides for establishment of ports of entry at the state line on all main highways for collecting the taxes. Trucks would be clocked for mileage both coming in and going out of the state, paying the tax as they left. Violations are made punishable by holding the vehicle and cargo involved until fines, costs and taxes are paid.

Newspaper Man Makes Visit To Quintuplets

By JAMES L. KILGALLEN
International News Service Staff Correspondent

(Copyright, 1935, by International News Service)

CALLENDER, Ont., Mar. 18.—Those quintuplets! How are they? The answer is "fine!"

And what "cuties" they are!

Dr. Allan Roy Dafoe, the now celebrated country doctor, took the International News Service reporter out to see the Dionne quintuplets—Marie, Cecile, Emilie, Annette and Yvonne—and the sight was something to gladden the eye and warm the heart.

Five Fine Babies

Five beautiful babies, kicking around in their beds, having a lot of fun and their big, grey-brown eyes lighting up at the sight of the doctor as he chucked them under the chin and called each by name. Healthy-looking babies, not quite ten months old, with cheeks rosy from three hours outdoors each day in their buggies. It was something you couldn't see anywhere else in the world! Here you saw it, away up here in the rugged north, more than 200 miles north of Toronto.

I met Dr. Dafoe at Morrison's General store on the main street of Callander. He wore a big fur cap and an overcoat (it gets cold up here) and he was smoking a pipe. He said "jump in" and we got in his car. It was filled with packages and he remarked: "I'm a mail man and everything up here." Most of the packages were gifts for the "quints."

We drove three miles over a winding road. On our way, driving through Callender, we passed the doctor's home, a two-story white building with a red brick front and a neat white fence. On the front of the house was a modest, brass plate containing the words: "Dr. A. R. Dafoe." There the doctor, a 51-year-old widower, lives with an elderly, genteel housekeeper who takes his telephone calls when he is away—as he is so often—treating the sick in the district.

Go To Dafoe Hospital

The road led into the country. We were headed for the "Dafoe hospital for the quintuplets." The doctor explained it cost the Ontario government between $10,000 and $15,000 to construct the road which used to be an old Indian trail. Years ago the Algonquin race of Indians inhabited the Lake Nipissing district. The doctor was profuse in his praise of the Canadian government officials for what they had done for the babies.

Dr. Dafoe called attention to the telephone poles and lines paralleling the road. The Bell Telephone company, he said, had built the lines out into the country to the hospital. He remarked that the only way the hospital could be reached by telephone was by first calling his home.

"It shouldn't really be called a hospital now," said the doctor. "It's really a nursery. The babies are no longer frail. It's a hospital only in the sense we have nurses there."

The automobile pushed on over the snow. Suddenly a shadow flitted across the doctor's kindly face. He pointed to a shack along the road and said:

"See that white rag on the door? Well, that's meant for a crape. their baby—nine months old—is dead. They called me in too late. Babies up here don't always get the best of care. Many folks are poor. It's all very sad."

Birthplace Of Babies

On we went for about three miles. When we were within 100 yards of our destination the doctor pointed to a house by the roadway and said:

"That's where the quintuplets were born."

It is a story-and-a-half, frame house, its yellow paint darkened by the elements. A typical Canadian homestead, with two little out houses. The doctor explained the quintuplets had lived there for the first four months—until the hospital was built.

The doctor's car almost immediately turned into a lane. The new home of the quintuplets—the Dafoe "hospital"—met the eye. It is a cheery-looking, one-story building, neatly painted with the color scheme green and yellow and a nice front porch and large windows.

The building is fenced in. The car stopped. A caretaker came, turned a key in a large iron gate, and let us through. An Eskimo dog followed at Dr. Dafoe's heels as he entered the hospital where those marvelous quintuplets are being given expert care by skilled Red Cross nurses.

(Tomorrow: Mr. Kilgallen will tell how Dr. Dafoe and the nurses handle the quintuplets.)

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Average Felon In Pennsylvania Native Born Son

Is Youth In His Twenties, Report Of Department Of Welfare Shows

BURGLARIES CAUSE MOST SENTENCES

By G. EVERETT DOYING
International News Service Staff Correspondent

HARRISBURG, Mar. 18.—Pennsylvania's average felon is a native-born youth in his twenties, the son of native-born parents, serving "time" for robbery or burglary, with less than common school education, and probably unmarried.

This characterization of the average type of the state's 6,000 criminals was gleaned today from statistics of the Department of Welfare compiled from individual record cards of inmates at Eastern and Western penitentiaries and the State Industrial School at Huntingdon.

Police and prison welfare workers believe the studies have developed valuable information to aid in the war on crime. It is probable the figures will be given considerable attention if Pennsylvania holds a crime conference this summer, as provided for in the Weiss resolution before the legislature.

Most Under Thirty

The studies show that more than half the prison inmates are under 30 years of age, 14 per cent being less than 21 years of age. The largest age groups were 25 to 28, 30 to 34 and 21 to 24 in that order, more than 1,000 criminals falling into each grouping.

Native-born prisoners outnumbered foreign-born 10 to one. A total of 500 foreign-born convicts were listed by the survey, as against 3,724 native white and 1,561 native Negro inmates. Commenting on this, the report said:

"It is interesting to find so many more native born than foreign born inmates of our prisons because the proportion frequently runs the other way."

Taking only the native whites, the studies revealed that 1,997 criminals in this group were of native parentage, more than twice the number of those of foreign-born parents.

From a crime classification standpoint, burglary appears as the most common crime, followed closely by robbery. The figures were 1,541 and 1,439 respectively. Larceny, murder, sex crimes, assault and carrying deadly weapons follow in that order. None of these groupings listed more than 1,000 criminals.

The reports listed more youths under 21 years serving sentences for burglary than any other age group. This also was true of larceny. The 25 to 29-year group drafted the largest number of robbers, while the greatest number of murderers were between 30 and 34 years.

Remarking that "presumably the cleverest criminals are the ones who do not get caught," the reports showed that more than 4,000 criminals had not graduated from common schools. Only 710 went to high school, and of these but 77 ever attended college. Intelligence questionnaire tests revealed that more than 3,500 of the group rated less than average intelligence and that the largest group were of the moron class.

More than twice as many of the inmates were listed as unmarried than married.

SNEAK THIEVES STEAL TWO COATS

Sneak thieves reached through a first floor window and stole two coats from the Smith home, 503 Florence avenue, Saturday night. One coat belonged to Mrs. Smith, and the other to Mrs. Ray Thompson, 421 Court street.

POLICE TAKE BOY TO HOSPITAL

Police took Richard Ryhal, 14, of 511 Vine street, to the Jameson Memorial hospital Saturday night. He was playing in Neshannock avenue and dislocated his left shoulder, according to a police report.

Local Canal On Rivers Program

Will Receive Consideration From Rivers And Harbors Congress In April

ANNUAL MEETING WILL TAKE PLACE

By ARTHUR C. WIMER
Special Washington Correspondent New Castle News

WASHINGTON, D. C., Mar. 18.—Proposed improvement of the Beaver and Mahoning rivers is expected to receive considerable attention at the 30th annual convention of the National Rivers and Harbors Congress which was called today for April 2 and 3. Representative Dewey Short of Missouri, national vice president of the organization, issued the call.

Officers of the congress regard the convention this year as probably the most important session ever held. With the president's work relief plan in the offing, they expect to draw up a program of river and harbor improvement for submission to administration leaders. It is thought probable the proposed Beaver-Mahoning improvement will be included in this roster of projects.

The projects committee of the convention will meet on April 30 and May 1 for the purpose of preparing a list of waterway projects for inclusion in the government's public works program.

Delegates representing the governor of Pennsylvania and the New Castle Chamber of Commerce are expected to attend the convention.

While records show 12 arrests for the past 24 hours the fact remains that none of them were made Saturday night and there was not one prisoner to face the mayor in police court on St. Patrick's morning which was refreshing.

Fire apparatus was kept speeding to various sections Saturday afternoon on account of grass fires. Before any person can build a fire to destroy rubbish he or she must first obtain a permit from fire authorities.

There's something about a Chesterfield —

There's one thing I especially like about Chesterfields — entirely aside from the fact that it's a milder cigarette — and I've heard a number of people say the same thing ... While I'm smoking Chesterfield I never get little crumbs of tobacco in my mouth — the tobacco doesn't spill out and that adds a lot to my pleasure of smoking them ... I notice more and more of my friends smoke Chesterfields.

On Court House Hill

Miss Helen R. Weingartner has been granted a notary public commission which was placed on record at the register and recorder's office today.

Boilers for the county home, the contract for which was let recently, have been ordered, but it is expected that it will be several weeks yet before they can be installed.

Ray Foster, of Plaingrove, was at the county commissioners office Saturday securing the names of the commissioners to a petition asking the state highway department to improve a road leading from the Plaingrove road near the Pollock store east to a point on the road running north from Moore's Corners on the New Castle-Slippery Rock road. Residents along this road desire that it be made a Pinchot road or be improved in any way that the highway department may elect.

Taxpayers who wonder where their money goes will be interested in the report of County Controller R. C. McCaslin, which shows that during the past year, $38,738.79 was paid out to the various penal institutions of the state for keeping prisoners sent up from this county. The largest amount, $16,287.16, was paid to the Western Penitentiary. The Pennsylvania Industrial Training School at Huntingdon, got the next largest amount, $9,718.02. Other figures are: Allegheny County Workhouse, $3,532.50; Torrance State hospital, $2,587.59; Fairview State hospital, $1,140.83; Polk State hospital, $437.42; State Industrial Home for Women, $667.76; Eastern Penitentiary, $452.59; Allentown State hospital, $280.28, and Dixmont hospital, $139.54.

The sheriff's office was the scene of a wedding Saturday when a Youngstown colored couple brought their own minister along to perform the ceremony. The contracting parties were Roosevelt Cooper and Miss Fannie B. Clinkscales. They were married by Rev. Albert Fowler, pastor of churches at West Middlesex, Pa., and Lowellville, O. They were accompanied by a number of their friends.

Sheriff Edward D. Pritchard has received papers from the Allegheny county court to be served on Herman Neumeyer, of West Pittsburg, to bring him in as a party defendant in an action of trespass filed in the Allegheny county courts by Morrow P. and Emily Perkins against F. F. Cochran. The case is one growing out of an automobile accident. The defendant claims that Neumeyer was responsible for the accident, and wants him brought in as a party defendant in the case.

When the judge is charging a jury at the termination of a murder trial and the attorney for the prosecution or defense "takes exception," a reader wants to know what "exception" means in the case. An "exception" is the method used by counsel in a case to have an appelate court decide whether the trial judge's ruling on the point "excepted" to, was correct. If the attorney does not ask for an exception at the time the ruling is made, or charge to the jury given, the court on appeal will assume that the ruling was correct, and will not hear argument to the contrary. Counsel is entitled to an exception as a matter of right.

Collectors who were given the 1934 delinquent taxes to collect report that their collections have not been much better, if any, than the previous year. Many of those who owed their taxes at the time that they were turned over by the county collectors have since been out of work, or if they did have work, have not been earning enough to meet their running expenses and get their taxes paid. From present indications it looks as though there will be a large amount of taxes that will be filed for 1934.

PRINCESS BARBARA IS HEADING FOR RENO

To Seek Divorce From Her Prince

Incompatibility Is Ascribed As Reason For Seeking Divorce

PRINCE MAY GET SETTLEMENT SUM

(Copyright, 1935, By International News Service)

LONDON, Mar. 18.—Prince Alexis "doesn't appreciate" his princess, Barbara Hutton M'Divani, and for that reason she is going to Reno shortly to divest herself of prince and title.

"But he's still the only man for me," she confided to friends today.

That remark referred to persistent rumors that the real motive back of Barbara's contemplated divorce was a new love interest in her life.

Incompatibility will be the formal grounds that she will lay before the Nevada court, Barbara said.

"Remain Friends"

"We've been very good pals, but he hasn't been appreciative of me," the Woolworth heiress complained.

"I don't know what lies in the future, but I will say this, Alex is the only man for me.

"We remain the best of friends, and will probably see a great deal of each other, because we will still be in the same social group.

"Alex is charming, but we just couldn't get along."

Referring to reports that divorce might mean a large financial settlement for the Georgian princeling, Princess Barbara said significantly:

"In my position, I shall do whatever I can for Alex. He's a swell guy." Barbara has already given him around a million dollars in gifts and endowments, it is reported, while he is said to have been guaranteed a life income of $50,000 a year.

She said she hoped to return to the United States aboard the Olympic March 27 or the Europa March 30.

Will Go To Reno

"Probably" she will go immediately to Reno to establish legal residence there, Barbara said, although she might remain for a few days in New York to confer with her attorneys. "That's all in the lap of the gods."

While Prince Alexis is in Spain, Princess Barbara is not losing any time over their separation. She spent the week-end in the country with friends, and is frequently to be seen with gay parties at London's bright spots.

The divorce decision came in Paris, only a few days after they were united following a winter's wide separation, she in New York and Alexis in India.

Split-up Inevitable

Chicago, Mar. 18.—"The split-up between Barbara and Alexis was inevitable."

Thus Mae Murray, stage and screen beauty, commented on Princess Barbara Hutton M'Divani's announcement that she was divorcing Prince Alexis.

Miss Murray learned about Georgian Princes from Prince David whom she married in 1926 and divorced seven years later, charging among other things that he had beaten and cursed her.

"Marry Americans," the petite blond advised, adding:

"To these Georgians a woman is only a plaything, a chattel.

"They love you passionately, but there is no kindness or consideration in their love.

Don Poncho Speaks Truth.

By ARTHUR BRISBANE

OF THE MANY 'relief and dole scandals," one reported from Martinez, in this state, surpasses others. A grand juryman alleges that "women on relief" were coerced into undergoing sterilization operations with threats to remove them from relief rolls.

This is going a little far, even for gentlemen distributing taxpayers' money.

THE PRESUMPTION back of the attempt to keep women on the dole from having children is, presumably, that women on the dole, would necessarily have inferior children.

Nancy Hanks, who lived in a little cabin without windows, was very poor, and might well have been on the dole in such times as these. It would have been a mistake by "enforced sterilization" to have prevented the birth of Abraham Lincoln.

WHEREVER YOU GO in this western country, the giant Pacific seems to follow. You ride over hundreds of miles of green hills and mountains, covered with wild oats and clover, and after riding far enough to lose sight of any ordinary lakes, sea or ocean, the great Pacific is still there under your right elbow as you go south. This is a wonderful, and "big" country. Enormous cala lillies grow out of doors, six feet high; heliotrope vines that never wither climb up over the roofs of houses, thickly loaded with flowers.

You should see this magnificent coast, and this is the time to come, with the great exposition in San Diego about to open, gathering Americans from every corner of the country. Remember that the spring and summer season is California's best season.

TODAY, Don Pancho, young and active Spanish-American, aged 83, whose grandfather owned a ranch on this coast when the country belonged to Mexico, decided that the ride in the direction of the mountain lions should lead to the "big bed rock," on the second mountain range, beyond the Marmole Valley.

Following a narrow trail above a long drop, Don Poncho remarks:

"This is the road that everybody used to take to Monterey, about 150 miles over the mountains and up north.

"Life was better then. People worked harder. We used to drive 500 steers at a time for Senator Hearst, from here to San Francisco, resting in the middle of the day. It took six cowboys for 500. Now they put them on trains; costs money, not so good. Those times were better. We had big Spanish wagons, used to cut down a big sycamore tree, cut out wheels from the trunk, grease the axles with tallow; you could hear the wagon coming more than a mile. When it squeaked too much we put on some more tallow."

DON PONCHO advises the younger generation thus:

"Good long sleep, every night. That's what I do. Get up every morning of my life at half past four, after good long sleep. Young people today don't know how to live. I tell you the truth. I danced with a girl. In a few minutes I stopped and said 'I dance no more. You smell like old wine barrel,' she had had something to drink. A few days later she said, 'You make me so ashamed, Don Poncho. I drink no more.'"

THE DEATH OF WILLIAM H. FIELD, only 58 years old, owner of the Rutland, Vt., Herald, means the loss of one of the ablest newspaper publishers and business men in the United States.

His death reminds newspaper proprietors that it is important to recognize ability, in men near them.

William H. Field worked for Frank A. Munsey, who knew too little about newspapers to keep Field as his business manager. Others that did know had cause for rejoicing. Field was one of the greatest newspaper publishers in America, and, necessarily, one of the hardest workers.

BUYERS for department stores and sporting goods houses might wisely prepare for a strong revival of the ping pong craze. Ping pong has drawn large crowds in Europe recently, a Hungarian winning the championship.

Perry, the world's champion amateur tennis player, now in California, formerly ping pong champion, does not agree that ping pong is bad for your tennis games, perhaps because his tennis is a wrist game.

Enterprising gentlemen that make over amateur tennis players into professionals will be interested in Mr. Perry's possibilities. He must realize, as other amateur champions have done, that while amateur standing is an admirable possession, "you canot eat it."

MORE THAN 2,000 CRIMINALS rounded up by the federal government, within a few days, are in jail. Under our present system this will mean 2,000 trials, many failures to convict the guilty, and many releases "on parole" after conviction.

In a more primitive day as many of the 2,000 as had criminal records, would have been disposed of and buried. That procedure, which we would deplore now, probably helped to diminish the crop of criminals, without wasting time on "sterilization."

Youth Struck Down Aged Mercer County Man To Get Money To Buy Cigarets

(International News Service)

MERCER, Pa., Mar. 18.—Henry H. Winkler, 19, of Mercer, confessed today, police said, that he had beaten 74-year-old Monroe Coulter on the head with a hatchet handle because he wanted money with which to buy cigarets. He said he became frightened and ran before searching his victim.

He was arrested at his home and told county detectives he had gone to Coulter's barn, had released the dog and had hidden until the aged man appeared. After pleading guilty before Squire McClain today, Winkler was taken into sentence court where he was sentenced to Huntingdon.

Let Death Take A Holiday
Of course, if you insist upon thinking of spring in terms of winter or of joy in terms of sorrow—or, let us say, of life insurance in terms of death—there is really nothing we can do to prevent it . . . But we'd

rather you wouldn't. We think of life insurance as *life* insurance, with all that the name implies. Freedom from worry. A comfortable old age. A guaranteed estate. In a word, the comforts of *life* . . . Perhaps that is one reason why this seventy-year-old mutual company, with nearly one billion dollars of insurance in force, numbers among its policy owners many a wise business man who regards life insurance as *the* investment opportunity of a lifetime. Yes—life insurance is very much alive. Let death take a holiday!

When R-34 Flew From Scotland to America, First Transatlantic Flight by Dirigible

SOON AFTER the United States navy seaplane NC-4 became the first aircraft to fly across the Atlantic ocean, the British dirigible R-34 pointed its nose westward and made the first transatlantic airship flight. The R-34, with 31 men aboard, made the flight in July, 1919, from East Fortune, Scotland, to Roosevelt field, New York. It accomplished the trip, a distance of 3,130 miles, in 108 hours and 12 minutes. After a few days in the United States, the dirigible made the return journey, setting a world's record for lighter-than-air craft by negotiating the distance in 74 hours and 56 minutes.

Finishing Drops First Game Here

Office Gives League Champs Surprise With 35-33 Victory Saturday Night

LOSS BY MECHANICS CLINCHES TITLE

ELLWOOD CITY, Mar. 18.—The Shelby Inter-department Basketball league took an unusual turn Saturday, cut the league season short, and clinched the title for the Finishing department the second straight year.

The situation was that the Finishing had two games won more than the Mechanics. A victory Saturday night would have given them title, but in case of defeat, which occurred, the Finishing would be compelled to play off a postponed game with the Cold Draw, that is, of course, if the Mechanicals came through.

Well, the underdogs had their day last Saturday. Finishing was humbled 35-33 by a fast clicking Office team, and the Mechanicals were humiliated by the Inspection passers 42-23. This of course gave the title on a platter for the Finishing.

Captain Patterson led his teammates to victory in the first game by tossing in six field goals. Justine and Ursu got four apiece for the Finishing. The Office held a slight edge at the end of every period.

Friedhoff and Lasso registered 11 points apiece for the Inspection, but Arnold of the losing team, took scoring honors with seven field goals.

Want License To Protect Sign Writers

Local Sign Writers Would Protect Themselves By City Ordinance

Petition was presented to council at their meeting in city hall today by a committee representing the Master Sign Writers in which solons were requested to adopt restrictions here which are effective in other cities. Council promised to confer with the sign writers.

According to their spokesman, Lou Pearsall, other cities have laws which make it compulsory for out-of town sign writers to pay a lilicense fee and are compelled to employ men of that particular town. Pearsall said the Sign writers here believed adoption of such regulations here would be only fair to local Sign writers.

Solicitor White informally said that in his opinion an ordinance to this effect would not be valid and expressed the same opinion about the ordinances in other cities referred to by the Sign writers.

And how did this come about?

The Amsterdam bookkeeper discovered that, by fashioning glass in different shapes, objects seen through them appeared much larger.

In other words, he invented the microscope.

Five Injured In Auto Accident

Car Skids Off Road And Crashes Into Telephone Pole Sunday Night

ELLWOOD CITY, Mar. 18.—Five Wampum people, three of whom are in the Ellwood City hospital, were injured in an automobile accident at Deemer's curve on the New Castle road about 10 o'clock Sunday night.

The car in which the five were riding was driven by Herbert McCune and was traveling in the direction of New Castle. In the car were his mother, Mrs. Howard McCune, Mrs. Arthur Wayman and daughter Marie and Ben Watkins.

In his report to local police McCune stated that he had started to slow up his car for the curve at Deemer's, when it skidded off the road and side-swiped a telephone pole, damaging the whole right side of the car.

All the occupants of the car were taken to the hospital. The two men were injured only slightly and after receiving first aid were discharged from the hospital. Mrs. McCune, Mrs. Wayman and her daughter Marie were less fortunate. They received bruises and lacerations about the head, face and hands. Although there is nothing serious they will be confined to the hospital for another day or two.

Last Rites For Edward N. Boots

ELLWOOD CITY, Mar. 18.—One of the largest funerals ever held at the Camp Run United Presbyterian church took place on Saturday afternoon at 2:30 when a very large assemblage of relatives and friends from far and near, gathered for the funeral services held for Edward N. Boots, whose death occurred early Thursday morning at his home on the Ellwood-Zelienople road following a lingering illness of several month's duration.

The services were conducted by Rev. K. W. McFarland of New Wilmington, former pastor of the church. Carl Kenneth, Raymond and Ralph Ketterer, cousins of the deceased, sang two beautiful numbers, The 23rd Psalm and Sometime We'll Understand. Many beautiful floral tributes testified to the esteem and affection of which he was held.

Immediate survivors are his widow, Mrs. Anna Brenner Boots; one son, Ralph; one daughter, Betty, both at home and two sisters, Mrs. C. T. Little of Venice and Mrs. Roy McDanel of Zelienople road.

Interment was made in the church cemetery with Frank and Garret West, Ferd and Norman Stamm and Edward and Herman Pflugh, as pallbearers.

House Leaders Strive To Kill Army Increase

(International News Service)

WASHINGTON, Mar. 18—Mandatory increase of the army of 165,000 men was endangered today when house fiscal leaders sought white house aid in an effort to kill the senate "rider" to the $400,000,000 annual army supply bill.

The question will be fought out at a meeting of senate and house conference committees on the army bill this week.

A fight to slice other increases in army funds voted by the senate also was threatened by the house conferees, who demanded that the big bill be kept within budget limits set.

Cooper's Condition Is Still Critical

Clell Cooper, of Slippery Rock, is still in a critical condition in a Jacksonville, Fla., hospital, as the result of an automobile accident at that city about ten days ago. Although Mr. Cooper did not break any bones it is believed that he suffered a stroke. He has been in a stupor ever since.

The accident happened at Jacksonville when Mr. Cooper was enroute home, alone, after spending the winter months in the south with his son, Harry Cooper, St. Cloud, Fla., and at Melbourne. His automobile completely overturned.

Mr. and Mrs. Harry Cooper, and Mr. and Mrs. Ralph Cooper, who were wintering in North Carolina, hurried to the bedside of the stricken man as soon as they were notified.

GREAT BRITAIN ACTS SWIFTLY ON HITLER'S DECREE

(Continued From Page One)

negative reply to a query as to whether Britain had promised France to enter a mutually protective arrangement with France alone if a wider scheme including Germany failed of establishment.

Lansbury asked if the government proposed to discuss the situation with the United States and other signatories of the World war peace pacts or to ask a meeting of the League of Nations assembly.

"Both of these matters are under consideration," Sir John replied.

"Are the Italian and French governments sending notes?" Lansbury asked.

"I cannot make a statement about it." Sir John said.

Sir John handed copies of the British note to the French and Italian ambassadors. It was expected to be made public this evening.

Will Act Together

Rome, Mar. 18.—Great Britain, France and Italy will present a united front in combating Chancellor Hitler's conscription plan and hope for cooperation from the United States, it was stated in high official sources today.

Well-informed quarters expressed growing anxiety over the situation when a cable was received from Ambassador Rosso in Washington declaring the United States had not yet made known its intentions.

High sources indicated to International News Service the great European powers will act in concert in one of four ways—a joint note of protest direct to Germany, an appeal to the League of Nations, commercial war, or armed intervention.

"The United States is in this as much as any other and we expect them to join us," one official said.

"Especially if a commercial war is decided upon, it would be futile unless the United States gave full cooperation.

"One thing is certain. The governments and England, France and Italy will act together and there will be no individual action."

Question concerning the possibility of mobilization, he said:

"We'll do nothing like that here unless the others do likewise."

Italy now has more than 300,000 men under arms and when new classes are enrolled in April the number will exceed 700,000. In the event of a general mobilization order, more than 7,000,000 men could be placed in the field within a few days.

Moscow Attitude

Moscow, Mar. 18.—An informal invitation to all European powers to unite immediately in "mutual guarantees of safety" in answer to the rearmament of Germany was extended by Soviet Russia today through the government newspaper "Izvestia".

A similar article appeared in Pravda, organ of the Communist party, and both attacked the "undoubted" military designs of a Germany freed by her own actions from the shackles of the Versailles treaty.

Whether the Reich's designs will fall on Austria, Memel and Danzig cannot be foretold, Izvestia declared, continuing:

"There is no doubt that with its last step Germany is preparing for political aggression.

"All now depends upon whether the powers can quickly form a system of mutual help in case of German attack. Only if Germany understands such a system is in force—with her if she desires and without her if she refuses—can be sure Germany comprehends she is weaker than the powers which wish retention of peace."

After Germany has fully clairified her aims, the other powers should afford full clarity regarding their defensive means and their power to safeguard the peace of Europe and humanity."

The suggestion amounts to advice to the powers to push through the so-called "Eastern Locarno" pact immediately regardless of German cooperation.

Germany Proceeds

Berlin, Mar. 18.—Oblivious to criticism from her former enemies, Germany today launched the task of creating her new army, provided for in Chancellor Hitler's conscription decree of Saturday which scrapped the Versailles treaty.

Defense Minister General Werner Von Blomberg called his staff together to work out the conscription plan on the basis of twelve army corps. But the framework will be elastic and designed to guarantee Germany full defensive strength against all eventualities.

Actual numerical strength of the new force remained unknown, but 320,000 men was generally accepted as the minimum figure.

"Nothing further can be said at present," declared an official of the Reichswehr, "except that outside estimates of half a million men are too high."

This same official said the present plan was to complete a scheme for the draft and then submit it to Chancellor Hitler for approval. When this has been received, details will be made public through the medium of the Nazi press.

Well-informed quarters intimated the plan would be based on an inverted pyramid, with a one-year term of service likely to provide a quick turnover for acquisition of rapid and effective reserves.

The first part of the plan, dealing with the standing or peacetime army, is likely to be based on the ratio of 5 per cent of ahe available population, providing over 350,000 officers and men within a short time. Increases in the navy air force will send the number to the 400,000 mark.

Germany's pre-war imperial army consisted of 24 corps, plus guards, affording a total of more than 700,000.

JAMES MITCHELL PLACED ON TRIAL FOR WIFE MURDER

(Continued From Page One)

Sheriff Edward D. Pritchard and Deputy Ben Hartland.

The indictment, charging him with the murder of his wife, was read by Prothonotary R. M. Campbell. During the reading Mitchell stood with uplifted hand. "How say you, "guilty or not guilty?" asked Campbell.

"Not guilty," replied Mitchell.

"How will you be tried?"

"By God and my country."

"God send you a safe deliverer," concluded Campbell.

Selecting Jury

Mitchell then took his seat beside his attorney, Walter S. Reynolds, and the selection of a jury began. Each juror was called and sworn on his voirdire. He or she was then examined by Reynolds for the defense and District Attorney Mont L. Alley for the commonwealth.

Examination had not proceeded far until it was evident that there were probably as many conscientious objectors to capital punishment as there were last week when Joe Stinnett was tried. More than half of the jurors called were opposed to capital punishment and were challenged by the commonwealth for cause.

Last week when the Stinnett case was up it was believed that it "just happened" that there were so many jurors on the panel who were opposed to capital punishment, but the jurors summoned for this week seem to be equally strong in their convictions, which would seem to indicate that there is a changing sentiment with regard to capital punishment.

Mitchell is charged with shooting his wife during an argument. It is claimed that he had been drinking. He says the shooting was an accident. He claims that he was handling a revolver when it was accidentally discharged. The bullet took effect in Mrs. Mitchell's abdomen, causing injuries from which she died.

One of the questions asked jurors is with reference to Mitchell's marriage. The question is, "If it should develop in this trial that Mrs. Mitchell was but a common law wife would it prejudice you in arriving at a verdict?"

None of those examined admitted that it would prejudice them. Another question was with reference to Mitchell's habits. It was: "If it should develop at the trial that Mitchell was addicted to the use of intoxicating liquor, would it prejudice you?"

All the jurors examined answered this question in the negative.

St. Vitus Church Will Have Novena

Devotions To Be Conducted Every Tuesday For Thirteen Consecutive Weeks

Tuesday will start a Novena at St. Vitus church that will continue every Tuesday for thirteen consecutive weeks, ending on June 13, with the Feast of St. Anthony.

Devotions will be conducted every Tuesday evening at 7:30 o'clock, Rev. Fr. N. DeMita stated today, and the church has been appropriately decorated. It is believed that the devotions will attract large crowds of members every week.

Rev. Fr. Albert Farina, an assistant at St. Vitus, will lead the devotions and will deliver discourses.

Because tomorrow brings also the celebration of the Feast of St. Joseph's, there will be two high masses in the morning, at 8 and 9 o'clock, in addition to the devotions in the evening at 7:30.

As St. Vitus is the only church in Lawrence county privileged to have the relic of St. Anthony it is anticipated that the novena will be attended by not only the local congregation members but many out of town people.

To Charge Pair With Auto Theft

Arrests Are Made By Constable McClenahan At New Bedford

Robert Wilson, 30, said to have escaped from a California jail, and Roger Bargar, 18, of Rochester, N. Y., are in the county jail here, and according to State Highway Patrolmen will be charged today with interstate larceny of an auto. They were captured by Constable Robert McClenahan about 12:30 p. m. yesterday at New Bedford. They were brought to jail by Corporal Lawton and Private Holmes of the highway patrol.

According to the report at the patrol station here, the pair were in Angola, N. Y., and stole a car belonging to Paul Rehberg of that place. They got gasoline at New Bedford, thanked the attendant and rode away without paying for it. Highway patrolmen chased them, but they escaped. They came to New Castle yesterday and went to the Emery gasoline station, near the airport, New Castle-New Bedford highway, and got gasoline, thanked a boy attendant and rode away without paying for it. A call was sent to the city police.

The city police put the call on the air for the Youngstown police, then notified the highway patrol and the latter notified Constable McClenahan on the telephone. He stopped the car and took the pair into custody at New Bedford. When searched it is alleged Wilson had a .32- revolver on his person. According to the patrol, Wilson has a police record and is wanted for jailbreaking in California. He is alleged to have told the authorities that he has stolen 60 or 75 cars, and on the day previous to the Angola theft stole a car at Erie and abandoned it between Buffalo and Olean.

Pulaskis Topped By Falcon Five

Game At Pulaski Floor Draws Crowd Of 800; Kawa Scores 25 Points

K. Pulaski basketball players gave all they had yesterday afternoon at the Oakland floor, but their efforts were unavailing as the Polish Falcons piled up a tremendous lead of 75 to 19 over the first-year Pulaskis. A crowd that numbered close to 800 witnessed the game.

Kawa Star of Game.

"Rus" Kawa was the star in the Polish Falcon ranks with 25 of the points. He played a fine floor game and was flashy throughout. Budai and Augustyn piled in 13 points apiece for the Falcons, with J. Sniezek getting nine points and B. Ostrosky eight points. The Falcons played an impressive game.

The Pulaski boys played their hearts out, but against the older and more experienced Falcons were unable to cope with their stronger opponents. Coach Walter Sniezek started his strongest lineup, and the boys played a fine brand of basketball, but the reserve strength shown by the Falcons was too much for the Oaklanders. "Red" Boron and Johnny Slosernick were the leading scorers on the Pulaski team, with 14 of the points. Zaremba had three and "Cash" Mateja, playing with a badly crippled leg, had two points. Despite his injury Mateja played a great game as did Boron, Zaremba and Johnny Slosernick.

Falcons Lead.

The score at the first period was 15 to 3. At the half it was 33 to 8, and at the end of the third period it stood at 48 to 18. The K. Pulaski boys played themselves out in the third period, making a very fine showing. The Falcons ran wild in the fourth stanza to ring up many points.

In the preliminary game the Falcon Reserves handed the Pulaski Reserves a 40 to 24 upsetting, with Henry and B. Koszela doing the best work for the Falcons and Boczar and Slezeski the best for the Pulaskis.

THE DETROIT TIGERS

While the Cleveland Indians are getting most of the attention in the pre-season forecasts, the Detroit Tigers, last year's American League winners, are likely to display strong opposition during the coming campaign. They seem to be just as good—no better, no worse—as they were last season, so the question of who shall win in '35 hinges upon whether or not any of the other teams have improved sufficiently to overtake Cochrane's boys.

The Auto City supporters who claim that Detroit is going to be vastly improved this season base their prediction on the fact that Rowe and Auker can start winning at the beginning of the year. As you will recall, neither was considered a heavy winner this time last year.

But these fans seem to be forgetting the case of Firpo Marberry when they become so prematurely jubilant. Last season Firpo won 15 games while losing only five, and the majority of his victories came in the forepart of the campaign when Auker and Rowe were not doing so well.

Firpo weakened about the time the younger pair began to win and he was relegated to a relief role. This season the big Texan, now passed his 34th birthday, can hardly be expected to chalk up so many early wins, so even though Rowe and Auker can get down to business immediately, there will be a good many games to grab that Mr. Marberry accounted for in 1934.

Elden Auker, Tommy Bridges and the Schoolboy will be three of the starting hurlers with Joe Sullivan the most logical candidate for the fourth assignment. Crowder, Hamlin, Hatter, and Larkin will fight for the remaining first-string berth. Marberry and Hogsett are excellent relief pitchers, but Charley Fischer, Isidore Goldstein, and Jake Wade will find difficulty landing a Tiger job.

Manager Mickey and Ray Hayworth will again do the catching with Frank Reiber taking care of the bull pen chores.

The infield, too, will be the same as last season. If Greenberg, Gehringer, Rogell, and Owen can play 150 games, everything will be fine but if any one is forced out for a lengthy period, pennant hopes will decline rapidly. Salty Parker and Heinie Schuble are the reserves but the less they have to play the better satisfied Cochrane will be.

Again the outfield will be composed of Goslin, White and Fox. Two will be selected from the trio of Chet Morgan, Bob Seeds, and Gerald Walker to do utility and pinch-hitting work.

So the club will be just about as good as it was in 1934, which at that time was classy enough to win the pennant. Unless an outfield trade involving Walker is made, the pitching staff is the only department that will vary from the ability shown in 1934. And a hurling corps, whether good or bad, is always susceptible to changes in form.

The three big questions involving the Tigers are: 1. Can the hurlers perform their work like pennant winners should? 2. Can the team again go through a season without being forced to call upon incapable reserve material? 3. With Detroit seemingly of about the same strength as in 1934, have the other contenders improved sufficiently to overtake the Bengals?

If you have difficulty in keeping the "logs" straight on the foundation when making a "log cabin" quilt, just use checkered gingham for the foundation and let the checks guide you.

Wilson Confident Phillies Will Be Greatly Improved

By DAVIS J. WALSH
International News Service Sports Editor.

WINTER HAVEN, Mar. 18.—Man and boy, manager and player, not to mention the on and off, Mr. James Wilson has been with the Philadelphia ball club so long that he's beginning to grow a bosom. He, therefore, can be presumed to speak with some authority in announcing today that this current edition of the Phillies is the best he has yet encountered. I don't suppose, however, that this statement is of the slightest importance. There have been times when the Phillies were so bad that nobody knew exactly whether to call in the coroner or the board of health.

I must have looked as though I was about to mention something of the sort, for Mr. Wilson suddenly stiffened and impaled me with a very stern eye.

Has Fast Infield.

"Don't kid these boys of mine," said he. "If you do, they'll make you regret it. What's funny, for instance, about Lou Chiozza, the best young second baseman in baseball, or a pitcher like Curt Davis, who won 19 games for our seventh place club last year, or another like the Indian, Euel Moore, who came up to us from Baltimore late in the year and kept throwing that ball right down their throats?

"What's funny about Dolph Camilli, the best first baseman in the league?"

This last remark, I suspect, comes under the head of the extravagant statement department, owing to the fact that, unless there is some misunderstanding about the matter, Mr. Terry of New York and Mr. Collins of St. Louis are still planning to play a little first base this year. Nonetheless, this Camilli is just good enough and his passing from Chicago to Philadelphia last year seems to have lost a club president his job.

Good Pitchers.

Anyhow, Mr. Wilson manager to trade a left footed drop kicker for a young man who hit .303 his first year out. In this and several other ways, Mr. Wilson contrived to have himself quite a year as manager. Somebody sold or traded one ball club right out from under him before he took charge, with those deals for Klein, Whitney and Virgil Davis.

But he came right up with another. He also personally developed Davis and Moore, the two best first-year pitchers in the league, exclusive of Paul Dean.

"My pitchers are going to be made to look very good by something the Philadelphia club hasn't had in years—an infield defense," Wilson went on. "I traded Bartell, my shortstop, for Blondy Ryan and Johnny Vergez and, before the year is half over, that's going to be funny. Why, Ryan alone will play more shortstop for me than Bartell can possibly play for Terry."

Penn State Nine Plays 17 Games

Prepares For Diamond Season —Bill McKechnie, Jr., Captains Team

(Special To The News)

STATE COLLEGE, Pa., Mar. 18.—With six of last year's baseball team on hand this season, Penn State is looking forward to a successful campaign. A 17-game schedule has been arranged for the Lion diamondmen.

The team will be captained by Bill McKechnie, Jr., son of the Boston Braves manager, who will hold down the first base sack for Penn State. Last year's infield will be intact with Johnny Stocker, basketball captain, at second; Frank O'Hora, shortstop, and Shorty Mikelonis at third. Two outfielders from last season also remain, Joe Bielicki and Pero Miller.

Coach Joe Bedenk has a problem on his hands to replace Keith Parks, outstanding pitcher for the last three years, who is a rookie with the Phillies. Jack Lutcher, another moundsman, was graduated last month, and last season's captain, Bill Kascsak, and Catcher Stan Zawacki were graduated in June.

Frank Smith, Altoona boy, who has already won varsity letters in football and basketball this year, is expected to carry the burden of the pitching assignments, although Stokes and Bachman, two relief hurlers from last season, are on hand. The catching assignment will be well taken care of by any one of three sophomores, Mike Kornick, Bernard Girton or Al Ochroch.

Penn State will open its season on April 10 with Bucknell at State College. The remainder of the schedule follows: April 13, Susquehanna; April 17, Navy at Annapolis; April 18, Georgetown at Washington, D. C.; April 20, Washington college at Chestertown, Md.; April 27, Juniata; April 30, Lebanon Valley; May 4, Pennsylvania at Philadelphia; May 8, Gettysburg; May 11, Western Maryland; May 17, Colgate at Hamilton, N. Y.; May 18, Syracuse at Syracuse; May 22, Dickinson; May 25, Temple; May 29, Muhlenburg; June 1, Bucknell at Lewisburg; June 8, Syracuse.

Bennett Accorded Honor In New York

Bennett Selected As Best Player To Appear In New York

According to a letter received from John Kraft, of New York City, formerly of New Castle, Wes Bennett, star basketball player for Westminster college, was voted as the best center to appear in New York, this year.

Coaches and sports writers of that district voted unanimously for the Titan passer recently. Westminster played at Madison Square Garden.

Kraft's Team Captures Title

Before a crowd of 2,500 persons, Credit Department basketball team, in the Chase National Bank league, New York, of which John Kraft, former New Castle resident, is a memebr, won the 1934-35 championship by winning a close 33-28 victory over the Personnel Department quintet, it was learned today.

Kraft played a good defensive game and found the hoops for three field goals. The Personnel five won the title in 1933 and 1934. The league is composed of some of the best former college passers in the country.

"Y." Devil Dogs, Union Ex-Highs Win Floor Tilts

Beaver Falls Newells Hand Walloping To Sacred Hearts In Feature Game At "Y."

Three floor games were played at the "Y." Saturday night. In the feature game the Sacred Hearts of the New Castl Church league proved easy prey for the strong Beaver Falls Newells, 48 to 16. The Hearts were behind at the half, 32 to 6, and never threatened the invaders.

DiCiccio, the Beaver Falls ex-high center, was the big noise in the battle with 20 points, with seven field goals and six fouls. Scott, Maraconda and Howarth also played fine basketball for the visitors. T. Cooper and Viggiano led the Sacred Hearts in scoring.

The National Pants lost to the Union Ex-High Stars in the second game on the bill, 39 to 30, in a well played game, with the score at the half 19 to 18 in favor of the Pants. The Union Ex-Highs turned on "the heat" in the second half to lead 21 to 11, and take the victory, with Monico and Hughes the high scorers with 13 points apiece. Lannigan also played a fine game and had six points.

The "Y."Devil Dogs handed the Castletons a 39 to 28 defeat in the final game on the bill, with the score at the half 16 to 15 in favor of the hotel boys. Baptiste, Seneski and Kulich had 37 of the points for the "Y." Devil Dogs, with Hitchen and Nocera the best for the losers.

HERE AND THERE IN SPORTS' LAND

Jimmy Brown of Temple university is the Eastern Intercollegiate Basketball conference individual scoring champion for 1935. The forward scored 72 points in eight games to win the title, held a year ago by Joe Stydahar of West Virginia by a three-point margin over Claire Cribbs of Pittsburgh. Goode of West Virginia finished third with 66 points and this season Stydahar was fourth with 64 points.

Horse Racing in West Virginia will be under the supervision and control of a three-member racing commission under a bill passed by the recent legislature and which became effective today. The state's 3 per cent tax on the pari-mutuel receipts at tracks is cut to 1 per cent and in addition the state will require a license of $500 daily for the operation of tracks of one mile or longer and $250 on small tracks.

For the fifth consecutive year Lehigh university has won the championship of the Eastern Intercollegiate Wrestling association, having captured a meet at Philadelphia Saturday. Lehigh piled up 23 points, including two individual championships. Penn State took second place with 17 points and also won two individual titles. Columbia was one point behind Yale which took 13 points.

Gregory Mangin won the men's national indoor tennis title at New York when he beat Berkeley Bell 8-6, 7-5, 2-6, 0-6, 6-2...Reider Anderson bettered all ski records when he won the international ski jump at Panica, Yugoslavia, with a leap of 95 meters 311 feet)...Helen Jacobs won the women's singles tennis title at the international meet at Cairo. She beat Mrs. Herbst 6-1, 6-2.

The chief morsel for fistic followers this week will be a 15-round bout between Art Lasky, Californian, and James J. Braddock, New Jersey. They are docketed to scrap in Madison Square Garden, New York, as one of the limitation bouts to locate as worthy an opponent for Max Baer as there is in the heavyweight ranks today. The winner will probably meet Primo Carnera.

N. C. Merchants Take Victory

New Castle Merchants basketball team defeated the Night School quintet 52 to 42 in a game at the senior high floor. The game required two extra periods to decide. Weber and Kennedy led the Merchants in scoring with 47 of the points. Cabas and J. Teplica led the Night Schoolers.

Gersons To Play Polish Falcons Tuesday Night

Gersons And Falcons Will Settle Question Of Supremacy At Humbert Floor

Gersons basketball team, one of the strongest in New Castle, leaders of the city league, will play the fast Polish Falcons at the Humbert floor Tuesday evening. The preliminary game will start at 7 o'clock.

The fans have been waiting for this important battle. The Gersons have contested the Polish Falcons claim to city championship honors, and the issue will be decided tomorrow night.

Coach Arnold "Fiz" Fraser will have his strongest lineup available for the Falcons, with Battley and Teplica at the forwards, Hutchison at center and Reiber and Shaffer at the guards. All of these boys are star performers and recognized stars.

The Polish Falcons with Tony Ostrosky as coach will present Rus Kawa and either Budai or Kendra at the forwards, with "Slim" Augustyn at center, and Kolodjeski and Sniezek at the guards.

The Falcons, fresh from their upset of the fine K. Pulaski team yesterday, will be out to take the measure of the Gersons, but this order looks awfully big at the present time.

Break In American Telephone To Lowest Level In Two Years Is Feature

(International News Service)

NEW YORK, Mar. 18.—A break in American Telephone to the lowest level in two years combined with a fresh collapse in cotton to bring a weak stock market today.

Many new lows for the year and longer were established, in such other issues as U. S. Steel, Bethlehem, Standard Oil of New Jersey and Auburn.

The crash in cotton ran to $2.50 a bale, and carried grains and other commodities down for substantial declines.

Selling in American Telephone reflected the pending government investigation of the Bell system and the pressure for rate reductions. The stock lost more than 2 points.

U. S. Steel and Bethlehem lost a point each to touch the lowest levels since 1933. Decline in the industry's operations and uncertainty over the outlook were the depressing factors.

The rails gave ground under the leadership of Atchison and Union Pacific, off more than a point each. General Motors and Chrysler were heavily sold and suffered sizeable declines. Consolidated Gas was firm but other utilities were under pressure. Allied Chemical fell 2 points in the chemicals, and U. S. Smelting more than 2 points in the mines.

Break Record On Fire Alarms

Firemen Answer Twelve Calls In Seven Hours And A Half On Saturday

OTHER FIRES OVER WEEK-END

All records for the number of calls for fire received in one day were broken here on Saturday, when firemen answered twelve alarms between 9 a. m. and 4:30 p. m., a period covering seven hours and a half.

One other alarm was answered later Saturday evening, which would make thirteen for the day.

Most of the fires were grass fires, the warm weather of the last two days of the week drying out the grass and making it highly inflammable.

In addition to the fires reported Saturday to noon, the following other alarms were answered:

Box 29, Highland and Meyer avenue, 1:45 p. m., grass; box 19, 1:50, West Leasure avenue, grass; box 27, 3:10, Euclid avenue, grass, box 74, North Cedar street, 4:15, grass; box 29, Denver avenue, 4:20, grass.

At 2:10, Saturday afternoon, firemen were called to the store of Fred Thomas, 110 West Washington street, when a cigaret butt, thrown on the cellar steps, set fire to them. The loss was approximately $10.

Firemen were called to Wilmington avenue at 1:55, Sunday afternoon by a grass fire.

Sunday evening at 9:50, the car of J. B. Harward, of 425 Hillcrest avenue, collided with a street car on Highland avenue, near Park avenue, causing a short circuit. Firemen were called and extinguished the fire which resulted in a small loss.

At 8:55 this morning, firemen were called to the home of Mrs. Hazel Southworth, of Winslow avenue, by an alarm from box 413. The hose to a gas stove in the bathroom pulled off and the gas ignited, setting fire to the floor of the room. A loss of approximately $10 was sustained.

Three Escape From State Reformatory

(International News Service)

HUNTINGDON, Pa., Mar. 18.—Guards and police today continued their search in the surrounding mountains for three youths who escaped from the Pennsylvania Industrial school here by breaking a lock on a skylight and jumping from their dormitory roof.

The fugitives were: Howard Border, 17 Lancaster county, serving 10 years for burglary; Frank Skurski, 19, Allegheny county, two years for involuntary manslaughter, and Bert Brown, 20, Allegheny county, five years for robbery.

But if the law forbids strike breakers to cross a state line, what about strike starters?

Have You Indigestion?

A DISEASE which starts with indigestion, gassy, sour stomach dizzy spells or general lassitude may be helped by Dr Pierce's Golden Medical Discovery. Thin blood and a run-down system also respond quickly to its tonic effect. Read what Mrs. L. E. Smith of 186 No. Courtland St., East Stroudsburg, Pa., said: "I suffered from indigestion for about seven years. If I ate half a slice of bread I was in misery. Finally I asked my husband to bring me a bottle of Dr. Pierce's Golden Medical Discovery and I surely did get relief. That was about five years ago. I can eat anything I want and feel fine afterward." Druggists.
